# PART I.

## GENERAL SUMMARY.

Personnel.

MR. CORDERY held the office of Resident from the commencement of the year until 13th March 1888. He obtained 30 days' privilege leave in November 1887; during his absence Major Robertson held charge of the Residency. Mr. Howell, having been appointed Officiating Resident, assumed charge of his duties on March 14, 1888, and continued in charge of the Administration until the end of the year. Lieutenant Cornish, the Second Assistant, officiated as First Assistant from the commencement of the year until July 11, 1887, when he was relieved by Major Robertson. The latter was relieved on the 16th December by Mr. Forbes, who remained in charge until the year closed. During the period of Lieutenant Cornish's deputation the duties of Second Assistant and Assistant Secretary were carried on by Lieutenant Melvill, in addition to his own duties as Assistant Superintendent, Thagi and Dakaiti Department. Lieutenant Cornish resumed charge on July 11, 1887, and continued to hold the office until the end of the year. In the Berar Commission the duties of Commissioner were performed throughout the year by Mr. Leslie Saunders.

Survey.

2. Satisfactory progress was made by the forest survey party in the Melghat. The particulars furnished in the administration report of the previous year included work done up to the 30th April 1887. At the close of the working season of that year the total area surveyed amounted to 453 square miles comprising 245 square miles on the 4″ scale and 208 square miles on the 2″ scale. The party resumed work at the end of November 1887 and was still in the field when the year under report closed. The outturn of work up to the end of May 1888 was as follows:—

| | | |
|---|---|---|
| Area plane-tabled on 2″ scale | ... | 412·30 square miles. |
| Do. on 4″ do. | ... | 138·90 do. |
| Total | ... | 551·20 do. |

The computations of the triangulation and traversing completed in the previous year were also got out of hand. The operations of the revenue survey were somewhat more satisfactory than in 1886-87, although, owing to certain inevitable difficulties, the outturn of area was not so much as was expected. The following figures contrast the results for the two years:—

| | 1886-87 | 1887-88. |
|---|---|---|
| No. of fields measured .. | 1,058, or 28,276 acres. | 2,063, or 60,778 acres 19 guntas. |
| Do. classed ... | 805, or 29,302 do. | 2,008, or 52,714 do. 23 do. |

The total cost of the operations was Rs. 18,971 as compared with Rs. 17,867 in the previous year.

Waste lands.

3. The number of leased villages during the year under report fell from 513 to 505, and the aggregate area from 9,20,861 to 9,09,369 acres But the rental rose from Rs. 79,763 to Rs. 83,258.

Acts introduced and repealed.

4. Only one Act of the Legislative Council of India was applied to the province during the year under report; this was Act IV of 1884 (The Indian Explosives Act).

Police.

5. The total strength of the police force employed in the Province was 2,822. The usual difficulty was experienced in obtaining recruits. The health of the force was indifferent; as many as 58 deaths took place, the death-rate being the highest hitherto recorded since 1878. Cholera and fever were the chief causes of the unusually high mortality. A decided improvement was noticed in the conduct and discipline of the force.

Crime

6. The number of cognizable cases reported to the police in the year was 7,803, showing no wide divergence from the average. In particular offences, considerable fluctuations however took place as compared with the preceding year. This was specially the case in murders and dakaitis, which were greatly in excess of the number reported in the previous year, when however the figures were unusually low. The Basim District suffered considerably from dakaitis. The notorious dakait and outlaw, Waghia Naikra, was killed by a village watchman in this district during the year. In the Amraoti District a large number of thefts was reported, but in the province generally this offence showed no remarkable increase. The value of property reported as stolen in the province was Rs. 1,77,005, the value recovered being Rs. 49,965. Of the cognizable cases, 1,717 ended in conviction. The number of non-cognizable offences reported was 5,252. In connection with these cases process was issued against 10,702 persons, of whom 3,245 were convicted.

Criminal Justice

7. There were no special features in the administration of criminal justice during the year. The number of District Magistrates remained unchanged. There were altogether 44 Stipendiary and 16 Honorary Magistrates. The number of offences reported during the year was 15,699 comprising 11,737 under the Penal Code and 3,962 under special and local laws. The number of cases returned as true was 12,580, or 80·1 per cent. The proportion of persons tried for offences to the total population was 1 in 146. During the year 9,794 persons were punished. Of these, 5 were sentenced to be hanged, 8 to transportation for life, 1,681 to rigorous and 175 to simple imprisonment; 7,439 were fined, and 242 were sentenced to be whipped. Offences affecting the human body showed a considerable decrease. Offences against property numbered 4,273, against 4,201 in the previous year. Thefts showed an augmentation. Serious offences against the person increased from 89 to 101. The fines imposed amounted to Rs. 65,355 as against Rs. 61,939 in 1886, and the percentage of realizations was also less. There were 22,406 witnesses examined, of whom 83·9 per cent. were only detained for one day, 13·3 per cent. for two days, 1·9 per cent. for three days, and ·9 per cent. for more than three days. There were 6 European British subjects brought to trial, of whom four were convicted. There were 66 persons tried by the Sessions Court in its original jurisdiction, and 25 convicted. The total number of appeals for disposal before the High Court of the Resident was 36. Of this number, 34 were received during the year. As a Court of revision the Resident dealt with 56 cases. The subordinate appellate courts disposed of 496 appeals.

Prisons

8. The jail population in the year was unusually low, its average daily strength falling to 890 from 1,017 in the preceding year. The release of a large number of prisoners on the occasion of Her Majesty's Jubilee and a decrease in the number of prisoners admitted were the chief causes of the reduction. Sentences of imprisonment passed in the year were also of less than average duration. The total number of persons who suffered incarceration in the year was 2,968. The number of previously-convicted prisoners admitted showed a slight decrease. The gross cost of the maintenance of the prison establishment was Rs. 81,505. Dearness of provisions and failure of the supply in the vegetable garden at Akola were the chief causes of the rise in expenditure that took place. Discipline among the prisoners continued good. Corporal punishments were inflicted in 20 cases only. The prison schools in the central jails at Akola and Amraoti produced satisfactory results. The mark system continued to work well. The cash income derived from the employment of prisoners showed a creditable increase. The jails suffered in common with outside localities from the general unhealthiness of the year under report; the number of deaths among the jail population was 25, of which 8 were caused by an outbreak of cholera in the Amraoti jail.

Civil Justice

9. The number of civil courts open was three less than in 1886. The total number of suits for disposal was 30,627, showing a decrease of ·8 per cent. as compared with 1886, and the number disposed of was 26,018, or 84·9 per cent.

Of suits instituted, 85·4 per cent. were for money due as compared with 86·2 per cent. in 1886. Suits on written obligations decreased from 14,749 to 13,917, and suits for money due otherwise than on bonds from 7,647 to 7,016. The aggregate value of suits capable of money valuation was Rs. 30,05,346-14-10, or an increase of Rs. 2,25,786-13-0 on the amount of the previous year. The average value accordingly increased from Rs. 108-1-2 to Rs. 118-0-10. The number of applications for execution of decrees during the year exceeded by 839 that presented in the previous year. The Courts disposed of 82 per cent. of the total number of 29,436 applications for disposal. The total value of the decrees in execution during the year was Rs. 2,36,979-12-7, against Rs. 2,57,058-6-1 in the preceding year. Of this, Rs. 13,179-7-11 were paid voluntarily, and Rs. 2,23,800-4-8 were realized by coercive process. The proportion realized voluntarily is for the province 5·5 per cent. of the whole. Including appeals pending from last year there were 971 appeals for disposal by the subordinate appellate courts, of which 632 were disposed of. Including 16 appeals which were filed during the year, the total number of second appeals for disposal in the Resident's Court was 33.

**Registration.**

10. The number of compulsory registrations effected in the year (18,089) was the highest hitherto recorded, and the increase took place in respect of all classes of documents. Optional registrations showed a slight recovery from the falling-off noticed in the previous year. The aggregate value of property transferred under registered documents rose from 57½ lakhs in the previous year to 62¾ lakhs in the year under report. The income of the department increased accordingly. The number and class of offices opened for registration business remained practically unaltered.

**Municipalities.**

11. The number of municipalities remained unchanged, nor was there any alteration in the constitution of the committees. No fresh taxation was imposed in the year. The gross income, excluding previous balances, amounted to Rs. 1,54,925, while expenditure amounted to Rs. 1,42,266. Several useful works were carried out at Akola, Amraoti, and Khamgaon; and there was a general increase in the sums expended on public health, convenience, and public instruction.

**Agriculture.**

12. By the detection and rectification of errors in some of the village papers there was an apparent addition of 179 acres to the area of the Province. The area under crops fell off by 18,651 acres, a result due partly to the unseasonable and excessive rain, and partly to the insufficiency of grazing land which necessitated an encroachment on cultivation. The decrease was only in the area under *kharif* crops, which fell off by 94,090 acres. The area under rabi showed an increase of 74,364 acres. The percentage of acreage under wheat rose from 14·4 to 16·4 per cent., while that under cotton fell from 32 to 29·8 per cent. The total area under irrigation exhibited a slight increase (51 acres) over the previous year. That under rice fell off by 2,242 acres, but this decrease was made good by an increase of 2,293 acres in the area under other irrigated crops. The experimental farm at Akola was discontinued, but that at Amraoti was worked throughout the year. Successful experiments were made in the cultivation of oats, wheat, and "bunee" or the long stapled cotton.

**Rainfall.**

13. The average rainfall for the whole province amounted to 52 inches as compared with 41·3 in the previous year. The principal characteristics of the rainfall were an extraordinarily heavy fall in the month of July and a somewhat unusual fall in the month of October, followed by a steady fall in the subsequent months.

**Food-grains.**

14. There were no remarkable variations in the average prices of wheat, rice, and gram; but owing to the unfavourable nature of the *kharif* harvest, the price of jowari, the staple food of the people, rose from 29 to 20 seers.

**Veterinary.**

15. The six Berar students studying at the Bombay veterinary college were well reported on at the close of the year. The year was remarkable for

its comparative freedom from contagious diseases among cattle. The total number of deaths from rinderpest during the year was 1,016. Epizootic aphtha (foot-and-mouth disease) was also much less common than in the previous year. "Surra" or relapsing fever prevailed among the ponies belonging to the provincial postal dâk contractor and caused a large number of deaths, but the disease did not spread farther. Steady progress was made in horse-breeding operations during the year. One hundred and twenty-seven mares were served by the 11 Government stallions maintained. Mule-breeding failed owing to the caste prejudices of the people. Only five mares were served by the two donkey stallions lent by the department of horse-breeding operations. An attempt was made to establish a horse and cattle show for the province, and a meeting was held at Akola at the end of October, but owing, it is surmised, to the unsuitableness of the month, the attempt met with but partial success.

Agricultural stock.

16. The statistics of agricultural stock show an increase under all heads except "cows and bullocks," the decrease under which is ascribed to the prevalence of "foot-and-mouth" disease and also in some measure to false registration on the part of the owners to evade payment of the grazing fees.

Takavi.

17. Advances under the Land Improvement Act fell from Rs. 9,425 in 1886-87 to Rs. 4,150 in the year under report. The decrease is ascribed to the existing indebtedness of the cultivating class to money-lenders, the delay in granting the advance which the system entails, and to ignorance of the provisions of the Act.

Forests.

18. With the exception of a decrease of 25 square miles in district unreserved forests, the area of forest lands in the province remained the same as in the previous year. Breaches of forest rules fell from 406 in 1886-87 to 387 in the year under report. Protection from fire was not so successful as in the previous year. The successfully protected area fell off by 11,149 acres, and a corresponding increase occurred in the area over which protection failed. The expenditure under this head decreased from Rs. 5-11-5 per square mile in 1886-87 to Rs. 5-9-3. The financial results of the year were on the whole more satisfactory than in the previous year; an increase of Rs. 11,650 in the expenditure being more than counterbalanced by an increase of Rs. 79,800 in the revenue. The net surplus was Rs. 2,23,087 as compared with Rs. 1,54,937 in 1886-87, and is the highest on record.

Trade.

19. There was no change in the system of registering the rail-borne traffic which is the only trade now registered in Berar. The statistics were as usual furnished by the railway audit office at Bombay, which receives an annual subsidy for compiling them. The noticeable feature in the year's trade is the large decrease in the export of raw cotton, food-grains, and oil-seeds. The total value of the imports increased by Rs. 1,19,878, but that of the exports fell off by Rs. 1,35,42,786. Except from Bengal, the port of Bombay, Madras, and Hyderabad, imports increased in value. The bulk of the export traffic of the province is absorbed by the port of Bombay. The exports to this port as well as to the Bombay Presidency fell off considerably both in weight and value. On the other hand the value of exports to all other provinces showed a steady increase. The trade in the several fairs held in the province during the year was reported to be very satisfactory.

Public Works.

20. The disbursements from all sources on public works aggregated Rs. 19,10,919, being Rs. 3,23,115 in excess of the outlay of the previous year. Under imperial works, grants of Rs. 2,53,500 and 29,900 were made for military and civil works respectively, and Rs. 2,41,786 and Rs. 28,154 of these amounts were expended. There was thus a lapse of Rs. 11,714 and Rs. 1,746 respectively under these heads. From the Berar provincial public works budget there was a grant of Rs. 12,85,000, of which Rs. 12,26,950 were utilized,

showing a lapse of Rs. 58,050, or 4·52 of the budget grant. The grants from the 1 per cent. road cess and from incorporated and excluded local funds amounted to Rs. 95,700, Rs. 1,50,845, and Rs. 2,56,089 respectively. Of the first sum, Rs. 80,982 were expended mostly on repairs to roads; of the second, Rs. 49,143 were spent chiefly on educational works; and of the last, Rs. 1,95,112 were utilized, of which more than half represents outlay on original works. The principal work in progress from imperial funds consisted of auxiliary buildings and officers' quarters for the British cavalry and of improvements to the entrenchment at Trimulgherry; also of other works of a miscellaneous character shown under the head of civil buildings. The most important works carried out from provincial funds were in connection with the accommodation of the Hyderabad Contingent troops in the cantonments of Aurungabad, Hingoli, Raichur, Ellichpur, and Mominabad. The progress made as regards kacheries and other revenue and judicial buildings in Berar, as well as jail, police, and educational structures, was satisfactory. Upwards of four lakhs of rupees were spent on the construction and improvement of roads intended for the benefit and development of trade. The head of miscellaneous public improvements includes the project for supplying the civil station of Amraoti with water, which was nearly completed.

Railways.

21. The progress of the Berar State railways was as follows:—The working expenses on the Khamgaon line were Rs. 36,489 against gross receipts of Rs. 53,479, showing a net profit of Rs. 16,990 equivalent to 3·47 per cent. on the capital outlay. On the Amraoti line the gross receipts amounted to Rs. 88,157, and the working expenses to Rs. 52,303, thus yielding a net profit of Rs. 35,854, equivalent to 8·07 on the capital outlay. The following table shows the financial results of the working of these two lines from period of construction up to date:—

| | Capital outlay. | Simple interest on capital account. | Net revenue realized. | Loss or gain. |
|---|---|---|---|---|
| | Rs. | Rs. | Rs. | Rs. |
| Amraoti Railway ... ... | 4,44,207 | 3,08,780 | 4,30,932 | +1,22,152 |
| Khamgaon Railway ... ... | 4,89,106 | 3,58,184 | 2,01,140 | —1,57,044 |

The Amraoti railway has thus been a financial success, whereas the Khamgaon line has so far not paid well.

Revenue and Finance.

22. Turning to the financial condition of the province, the gross revenue amounted to Rs. 1,14,51,079, and the total disbursements to Rs. 96,62,722. Omitting from calculation the receipts and disbursements under incorporated and excluded local funds, the provincial surplus was Rs. 17,36,503. The amount actually paid to His Highness' Government was Rs. 19,73,383; this represents the entire surplus of the year 1886-87 and the balance of 1885-86 unpaid in 1886-87 owing to the working cash balance in that year not permitting of the payment of the entire surplus. The accrued surplus in favour of His Highness the Nizam on the 31st March 1888 was Rs. 43,89,608. Of the gross income, Rs. 98,71,201 formed provincial, Rs. 6,03,676 incorporated, and Rs. 9,76,202 excluded local funds. There were Rs. 81,34,698 of the provincial, Rs. 9,24,348 of the excluded local funds, and the whole of the incorporated local funds revenue utilized. In the year under report the new provincial contract resulted in a deficit of Rs. 1,27,402, which was met from the balance at credit of the Resident at the close of the previous year, leaving at his credit Rs. 18,87,090; this balance lapses, and a new special account was ordered to be opened for the year 1888-89 with a balance of five lakhs. The principal sources of income other than land revenue

exhibiting an increase, were stamps, forest, registration, law and justice, courts of law, police, education, receipts in aid of superannuation, stationery and printing, miscellaneous, civil works, army—Hyderabad Contingent,—and contribution from local to provincial. On the other hand the statistics under the heads of opium, excise, provincial rates, interest, law and justice, jails, State railways, and contribution from provincial to local show reduced receipts The total disbursements show a net increase of Rs. 2 19,511, being chiefly under military and civil works, while the total receipts show a net increase of Rs. 1,01,814 principally under land revenue and forest.

Vital Statistics

23 The year was particularly unhealthy, and the death-rate high. Cholera appeared in an epidemic form in April and caused great mortality. To this and to an unusually heavy rainfall the high death-rate is attributed. The total number of recorded deaths was 115,797, exceeding by 22,251 the number registered in the previous year, and by 12,650 the total number of births recorded in the year under report. Infants below one year of age appear to have enjoyed comparative immunity from the insanitary influences of the year Of the different districts, Amraoti, which suffered severely from cholera, had the highest and Wun the lowest death-rate. The death-rate for the year was 44·5 per mille as compared with 36 7 per mille in the previous year. The number of births registered was 106,147, as compared with 98,229 in the previous year. Urban as compared with rural registration remained defective, though showing some improvement; the registering establishments on the whole improved. Of the births registered, 54,711 were of males and 51,136 of females In the different districts the highest rate was recorded in Buldana, and the lowest in Wun. The birth-rate for the year was 40·5 per mille.

Medical Relief.

24. The number of institutions for medical relief was increased by the opening of a new dispensary. The number of patients treated rose from 231,9 in the previous year to 218,510, of whom 216,150 were out-door and 2 360 in-door patients. This increase was partly the natural outcome of the unhealthiness of the year, partly due to the opening of the new dispensary mentioned, and in some measure to the increasing popularity of the institutions Fever of a malarious type was, as usual, the disease for which there were the most admissions. The number of major operations performed was 325. The total receipts of the dispensaries amounted to Rs 1,01,210, against Rs. 86,531 in the previous year. With a view of rendering the dispensaries more self-supporting, the question of introducing a moderate scale of fees leviable from well-to-do patients was revived at the close of the year The steady growth year by year of the attendance at these institutions is a conclusive sign of their growing popularity and usefulness.

Sanitation.

25. Neither in the municipalities nor in the districts were any sanitary works on a large scale undertaken, but the ordinary minor conservancy and sanitary works were prosecuted with fair success. The expenditure (Rs. 81,155 municipal and Rs. 1,03,390 non-municipal) was above the average. The most important work completed was the drainage of the town of Khamgaon. For the civil station of Amraoti, where a good drainage system is much needed, a similar scheme, estimated to cost Rs. 48,131, was taken in hand. A scheme for the water-supply of Akola was under consideration. Owing to the vigorous action of the authorities in enforcing regulations, the sanitary condition of the towns and villages in the Basim District was much improved.

Vaccination.

26. The total number of vaccine operations performed by all establishments was 97,158. The figure reached would doubtless have been larger had it not been necessary to employ the majority of the vaccinators on special cholera duty during four months of the year. An appreciable increase took place in re-vaccinations. The total expenditure incurred fell from Rs. 17,119 in the previous year to Rs. 16,770, and the average cost of each successful

operation was reduced from 3-3 as. to 3-1 as. Steady progress under unfavourable circumstances was the feature of the administration of the vaccination establishment in the year.

Education.

27. Owing to the unhealthiness of the seasons the year was not favourable for the general progress of education. Although the number of schools increased by 45, the number of scholars was almost the same as in the previous year. On the other hand education gained by the conversion of a number of private schools, in which the instruction imparted was of a relatively low type, into "aided schools" teaching up to the Government standard, and subject to the control of the educational department. In the two high schools at Akola and Amraoti the results of the matriculation examination were creditable to the head masters, but the middle or anglo-vernacular schools did not show improved results. There was no change in the number of primary schools for boys under the control of the department and of municipalities; the total number of scholars fell off by 1,345. Female education showed a slight advance. The number of Government and municipal primary schools for girls increased by 2, and the total number of scholars by 79. A slight advance was also made in the education of Muhammadans. Physical education maintained its popularity as in the previous year. There were 397 gymnasia as against 372 in the previous year. The training college for schoolmasters did satisfactory work and turned out a fair proportion of qualified teachers. The total expenditure of the year rose from Rs. 4,02,782 to Rs. 4,24,984. Of the total outlay, Rs. 2,51,139 was provided from provincial revenues, Rs. 1,17,021 from the educational cess, Rs. 41,361 from fees, and the balance from local funds and subscriptions.

#### Changes in the Administration.

2. Mr. J. G. Cordery, C.S.I., continued to hold charge of the Administration till the 13th March 1888, when he was compelled by ill health to proceed on leave to Europe. During his absence for a month on privilege leave in November 1887, the charge of the Hyderabad Residency devolved on Major Robertson, the First Assistant. Mr. A. P. Howell, B.C.S., having been appointed to officiate as Resident, assumed charge of his duties on the 14th March 1888 and continued in charge of the Administration until the end of the year.

Lieutenant W. H. Cornish received charge of the office of First Assistant Resident and Secretary for Berar from Mr. A. H. T. Martindale, M.C.S., on the afternoon of the 28th March 1887, on the transfer of the latter officer to Quetta, and continued to hold charge of the office until relieved by Major D. Robertson on the forenoon of the 11th July 1887 Major Robertson was relieved on the forenoon of the 16th December 1887 by Mr. G. S. Forbes, M.C.S., who was in office at the close of the year.

During the period of Lieutenant Cornish's deputation, the office of Second Assistant Resident and Assistant Secretary for Berar was held by Lieutenant P. J. Melvill in addition to his own duties as Assistant General Superintendent of Operations for the Suppression of Thagi and Dakaiti. Lieutenant Cornish resumed charge on the 11th July 1887 and continued to hold the office until the close of the year.

In the Berar Commission the duties of the Commissioner continued to be performed throughout the year by Mr. Leslie Saunders, B.C.S. The office of Judicial Commissioner was held by Colonel H. C. A. Szczepanski in consequence of the departure of Colonel J. G. Bell on furlough.

# CHAPTER II.

## ADMINISTRATION OF THE LAND.

### SECTION I.

### Survey and Settlement.

Forest Survey

4 Considerable progress was made by the forest survey party employed in the Melghat. In paragraph 4 of the Administration Report for the previous year details of the areas surveyed were furnished up to the 30th April 1887. The survey party remained in the field till the 25th June, and at the close of the working season of that year the total area surveyed amounted to 453 square miles comprising 245 square miles on the 4″ scale and 208 square miles on the 2″ scale The party resumed work at the end of November 1887, and two detachments were sent into the western and north-western parts of the Melghat. In the middle of January 1888 a third detachment was sent to work along the southern boundary of the Melghat, and towards the end of the same month a fourth detachment was sent to complete the survey of the Bairagarh Reserve, which it finished early in May 1888. The party was still in the field when the year under report closed; hence separate figures for the year in question have not been furnished. The following extract from the report of the Superintendent of the forest survey branch shows the work done by the party from the time it resumed operations till the end of May 1888 —

"An effort was to be made to complete the survey of the Melghat Taluk, but the area remaining to be surveyed was a large one, and it was soon evident that, unless the two detachments in the south and west were materially strengthened, this would be impossible. Accordingly the detachment in the Bairagarh Reserve, which formed the *nucleus* of a larger one destined for work in Bashahr, was detained and sent to the Western Melghat, and another small one of three surveyors was ordered down from Jabalpur.

"The party is still in the field, and it is not possible therefore to give accurate areas to date, but the out-turn to the end of May was as follows :—

| | | | |
|---|---|---|---|
| "Area plane-tabled on 2″ scale | ... | ... | 412·30 square miles. |
| Do. do. 4″ do. | ... | ... | 138·90 do. |
| | Total | ... | 551·20 do. |

"and the approximate area surveyed up to date, 650 square miles, the largest out-turn yet accomplished since the beginning of the Melghat Survey. * *"

"The village demarcation is, of course, completed, but a question has arisen in connection with the boundary line between the Melghat and the Nimar District of the Central Provinces. Proposals have been submitted for its settlement, but up to date no decision has been arrived at. Temporary marks (in addition to the existing ones) have, however, been set up on what is considered to be the correct boundary line, and it is anticipated that a re-survey of the line will not be necessary.

"The computations of the triangulation and traversing completed last year have been got out of hand.

"The following maps have been published :—

"On the 4″ scale, No. 26 N.W. and 20 S.E., comprising the villages of Borala, Goudwagholi, and Nandadari, and on the 2″ scale Nos. 20 S.E., 20 S.W., 27 N.W., and 27 S.W.

"The following sheets have been drawn and are ready for examination before being sent to the press, *viz.* :—

"Nos. $19^{NE}_{1}$, $19^{NE}_{2}$, $19^{NW}_{1}$, $19^{NW}_{2}$, $26^{NW}_{3}$, $26^{SW}_{1}$, $26^{SW}_{3}$, $26^{SW}_{4}$, all on the 4″ scale, and Nos. 20 N.E. and 20-A N.E. on the 2″ scale.

"And the drawing of the following sheets is well advanced:—

"Nos. $19\frac{NE}{4}$, $19\frac{SW}{4}$, $20\frac{NW}{1}$, and $20\frac{NW}{2}$ on the 4" scale, and No. 20 N. W. on the 2" scale."

Revenue Survey.

5. The result of the operations of the Survey and Settlement Department during the year under report was somewhat more satisfactory than in the previous year, although owing partly to some of the measurers having been told off at the beginning of the year to examine boundary-marks and calculate the trees in izara villages, and partly to difficulties arising out of the peculiarities of the land to be measured, the out turn of area was not so much as was expected. The following figures compare the total out-turn for the year under report with that of the previous year:—

| | 1886-87. | 1887-88. |
|---|---|---|
| Numbers of fields measured ... | 1,508 or 28,276 acres ... | 2,063 or 60,778 acres 19 guntas |
| Do. classed ... | 805 or 20,302 „ ... | 2,008 or 52,714 „ 23 „ |

The Survey and Settlement Officer furnishes the following details of the work done:—

"Of the measured area, 194 numbers with 5,111 acres 17 guntas were tested, equal to 9·4 of numbers and 8·4 of area. The test of 170 numbers were classed with an area of 4,391 acres, equal to 8·4 and 8·3 respectively of the whole classification, the results being on the whole satisfactory, though, owing to the uneven country and thick undergrowth in which the measurers were generally employed, the percentage between test and original measurement was higher than would appear in more open country.

"The average number of measuring working days was 30·71 and of classification 10·29 The average of each measurer's daily work was 60 acres 4 guntas, and of each classer 155 acres 24 guntas. 163¼ days were devoted to boundary-mark inspection at the average rate of 11½ numbers inspected per diem; 97½ will be found entered under this head for izara villages.

"The total expenditure was Rs. 18,971-6-0, of which Rs. 17,812-13-2 were on account of salaries. The total expenditure under the head of boundary-marks for mounds and stones erected in culturable and unculturable land was Rs. 2,828-14-6, Wun District, and Rs. 312-11-0, Basim District."

## SECTION II.

### Waste Lands.

6. The number of villages leased under the Waste Land Rules fell from 513 to 505. The decrease was due to six izara villages whose leases had expired having been made "khalsa" villages and to two integral waste villages having come under cultivation and been included in the number of khalsa villages. The area of all these villages decreased from 920,861 to 909,369 acres. But the rental rose from Rs. 79,763 to Rs. 83,258.

## SECTIONS III AND IV.

7. There are no Wards' or Government Estates in the province.

# CHAPTER III.

## PROTECTION.

### SECTION I.

#### Course of Legislation.

8. Only one Act of the Legislative Council of the Governor-General of India was made applicable to the Hyderabad Assigned Districts during the year under report: this was Act IV of 1884 (The Indian Explosives Act).

### SECTION II.

#### Police.

Strength.

9. The full strength of the Police in the year under report was 2,822 as compared with 2,762 in 1886. Measures to reduce the number of camel sowars and to strengthen the reserves were taken in the course of the year. The usual difficulty was experienced in obtaining recruits. The total strength of the force gave one policeman to an area of 6·2 square miles, and one to every 946 persons of the population of the Province.

Composition and health of the force.

10. The health of the force was not good. The death-rate, 20·5 per thousand, was the highest recorded, except that of 1878. The total number of deaths in the force was 58, against 22 in 1886. Cholera and fever both contributed to the heavy death-rate. Omitting vacancies, of which there were 57 at the close of the year, the details of the force according to race and caste or religion were as follows :—

| | Officers. | Men. |
|---|---|---|
| Christians ... ... ... ... | 17 | 9 |
| Mahomedans ... ... ... ... | 181 | 940 |
| Brahmins ... ... ... ... | 180 | 389 |
| Rajputs ... ... ... ... | 41 | 167 |
| Sikhs ... ... ... ... | 11 | 11 |
| Hindus of all other denominations ... ... | 105 | 713 |
| | 535 | 2,229 |
| | 2,764 | |

Conduct and discipline

11. There was a perceptible improvement in the conduct and discipline of the force. The number of punishments, both departmental and judicial, fell from 332 and 50 respectively in 1886 to 279 and 39 in the year under report. The number of men rewarded by promotion was 59 and by grants of money 28, as against 30 and 55 respectively in 1886.

Resignations and entertainments.

12. The total number of men who left the force from all causes was 326 as compared with 295 in the previous year. Of these, 54 retired on pension or gratuity, 134 resigned, 54 were dismissed, 24 discharged, and 2 deserted, while 58 died. As regards service, in addition to the 341 men newly entertained, there were 1,348 with service ranging from one to ten years, and 1,067 with service of ten years and upwards.

13. There was no change in the equipment of the force. Excluding gazetted officers, the number of men supplied with fire-arms was 1,387; with swords only or with swords and batons, 460; and with batons only, 966. Equipment.

14. The total number of cases of cognizable crime reported during the year was 7,803. Of these, 7,705 were investigated, while 98 were rejected as false. This number and the distribution per district did not materially differ from that reached in the previous year: however in particular offences more marked fluctuations took place. Of the cases classed as cognizable, 3,010 were cases of petty nuisance. As the average price of food-grains was somewhat higher than that ruling in the four preceding years, the total result may be taken to show that there was no falling-off in the efficiency of the force. Subjoined is a comparative statement classifying the offences of the year under report and that preceding it :— State of crime.

| | 1886. | 1887. |
|---|---|---|
| Class I—Offences against the State and public tranquillity ... | 98 | 96 |
| „ II—Serious offences against the person ... ... | 249 | 228 |
| „ III—Serious offences against person and property or property only ... ... ... ... | 1,055 | 1,134 |
| „ IV—Minor offences against the person ... ... | 178 | 175 |
| „ V— Do. against property ... ... ... | 2,849 | 2,860 |
| „ VI—Other offences ... ... ... ... | 3,212 | 3,212 |
| | 7,641 | 7,705 |

15. The total number of murders rose from 23 to 38; in 1886 the number of murders committed however was exceptionally small. There were no convictions for murder of illegitimate children. Heinous crime.

Dakaitis rose from 6 to 13, but again the figure for 1886 was unusually low as compared with those for the two previous years. Of the dakaitis, 9 occurred in the Basim District, which is, by reason of its situation on the boundary, specially liable to this class of crime. As regards the province generally, the returns of this crime were not unsatisfactory. The career of a notorious outlaw, Waghia Naikra, was brought to a close during the year. He was killed while attempting, in conjunction with four other persons, to commit a dakaiti on the village of Vidal in the Basim District. One dakaiti in the Melghat of the Ellichpur District was surmised to have been committed under the leadership of one of Tantia Bhil's gang, but there is no reason to believe that Tantia himself was present. The total number of robberies rose from 24 to 26. The number was still below the average of the past four years. House-breakings increased from 909 to 981, and thefts from 2,301 to 2,367, however the figures were below those for 1885. In house-breakings the total value of property stolen and recovered was as under :—

| | 1886. | | | 1887. | | |
|---|---|---|---|---|---|---|
| | Rs. | a. | p. | Rs. | a. | p. |
| Stolen ... ... | 77,342 | 10 | 2 | 1,06,085 | 7 | 10 |
| Recovered ... ... | 16,993 | 11 | 2 | 21,709 | 0 | 7 |
| Percentage recovered .. | 21·9 | | | 20·4 | | |

16. Classified according to the value of property stolen, the figures under the head of theft exhibit no material variations in the two years. The figures are compared below :— Thefts.

| | 1886. | 1887. |
|---|---|---|
| Under Rs. 10 ... ... ... | 1,599 | 1,673 |
| From Rs. 10 to Rs. 100 ... ... | 586 | 571 |

| Over Rs. 1,000 ... ... ... | 3 | 2 |
| | 2,301 | 2,367 |

The largest number of thefts occurred in the Amraoti District.

Photographing of old offenders.

19. A system of photographing habitual offenders was introduced in the year. This, it is hoped, will prove of especial value in tracing criminals belonging to nomadic tribes.

Relations between the Police and the Magistracy.

21. Steps are being taken to define more clearly than is the case at present the relations between the Police and the Magistracy.

## SECTION III.

### Criminal Justice.

Tribunals.

**22.** The number of criminal courts open at the close of the year was one in excess of the number shown last year, *viz.*:—

1 Resident's Court (High Court).
1 Judicial Commissioner's Court (Sessions Court).

Amount of crime.

**23.** The annexed table exhibits the number of offences reported and struck off the register of offences as well as the cases brought to trial before the criminal courts in each of the last two years:—

| Years. | Offences reported. | Cases dismissed under Section 203, Criminal Procedure Code. | | Cases struck off as false. | | Cases returned as true. | | Cases brought to trial. | |
|---|---|---|---|---|---|---|---|---|---|
| | | No. | Per cent | No. | Per cent | No. | Per cent | No. | Per cent |
| 1886 ... | 16,017 | 2,104 | 13·2 | 742 | 4·6 | 13,171 | 82·2 | 11,418 | 71·2 |

It will be seen from the above that there was an increase in the number of complaints summarily dismissed, a result *primâ facie* indicative of greater care in the examination of complainants.

There was a decrease in the number of offences struck off the register.

The following is an abstract comparing the offences in each class with the number for the preceding year:—

Serious offences against the person increased by 12; the increase occurring chiefly under the head of murder and grievous hurt. The increase in murder cases was mainly confined to the Ellichpur District.

Serious offences against the person and property, or against property only, showed an increase, and of the more important descriptions of offences coming under the head dakaiti was more largely represented than in 1886, the increase being from 8 to 18. Out of these 18 cases, 1 was accompanied with murder, and in 8 there was an attempt to cause death or grievous hurt. On the other hand robberies were fewer by 3.

The number of persons (including those awaiting trial at the close of 1886) dealt with by Magistrates was 18,610, and they were thus dealt with:—

| | No. | Per cent. |
|---|---|---|
| Died, &c. ... ... ... | 288 ... | 1·6 |

| Committed and referred . ... | 146 ... | 0·8 |

The proportion of persons convicted is one per cent. less, and of persons discharged or acquitted after trial, one per cent. greater than in 1886.

Distribution of work.

24. The following table gives the number of cases disposed of by the various courts during the last three years:—

| Courts | Cases disposed of. | | | Percentage. | | |
|---|---|---|---|---|---|---|
| | 1887 | 1886. | 1885 | 1887. | 1886. | 1885. |

| Special Magistrates .. | 2,371 | 3,306 | 4,777 | 21·8 | 28·5 | 35·9 |

The number of cases disposed of by the Deputy and Assistant Commissioners was less than during the previous year, while the Tahsildars have as usual done most of the work.

Special jurisdiction of Deputy Commissioners.

25. Of 69 cases involving 117 persons disposed of by Deputy Commissioners in exercise of their enhanced powers, 52 persons or 44·4 were convicted, and 65 or 5·56 were acquitted or discharged. Of those convicted, 94·6 per cent. were sentenced to imprisonment for terms varying from six months to seven years.

The average duration of cases tried by Magistrates, including cases under Section 30 of the Criminal Procedure Code, was 5·6 as against 5·5 in 1886.

Summary trials.

26. During the year under report 476 cases involving 718 persons were tried summarily, thus showing a small increase. Of the persons tried summarily 119 were acquitted and 519 convicted, against 69 and 586 respectively in the previous year.

Jurisdiction over European British subjects.

27. Six European British subjects were brought to trial during the year against seven in the previous year. Of these, four were convicted and two acquitted or discharged.

The following table gives the details of the sentences passed by all Courts :—

| Class of tribunals. | Year. | Total number of persons punished. | Persons sentenced to | | | | | | Persons ordered to find or give security or recognizance to keep the peace or sureties for good behaviour. | Persons imprisoned in default of security for good behaviour. |

| 1886 ... | 61,939 ... | 53,328 ... | 4,873 |
| 1887 ... | 65,335 ... | 50,547 ... | 5,610 |

29. The total number of witnesses examined—22,406—by all Courts was slightly less than in 1886. Witnesses.

The details of the periods during which witnesses were detained in the District Courts are as follows :—

| | Percentage. | |
|---|---|---|
| | 1886. | 1887. |
| Discharged on the first day ... | 78·9 ... | 83·9 |
| Do. second day ... | 14·9 ... | 13·3 |
| Do. third day ... | 4·2 ... | 1·9 |
| Detained more than three days ... | 2·0 ... | ·9 |

The total number of witnesses detained for more than three days was 320 (as against 697 in 1886); and of these, 179 were discharged on the fourth day and the rest from the fifth to the twelfth day. These figures indicate a considerable improvement over the previous year's report.

30. The proportion of persons tried for offences to the total population of the province was 1 in 146, as against 1 in 132 in the preceding year. The proportion of witnesses was 1 in 81, against 1 in 76 in 1886. Proportion of offenders and witnesses to population.

31. The amount of work disposed of by the Sessions Court in 1887 and the preceding year will be seen from the following abstract :— Sessions Court.

| Year. | Persons disposed of during the year. | Convicted and sentenced to death. | Convicted and sentenced to transportation. | Convicted and sentenced otherwise. | Acquitted, &c. |

The percentage of convictions to disposals was 57·8, against 64·5 in the previous year.

Five persons were sentenced to be hanged. Of these five, the sentence of one was commuted by the Resident as High Court to transportation for life.

Of the 28 sessions trials, 24 were held with the assistance of assessors. In 12 of the cases the Sessions Judge agreed with all the assessors.

The average duration of trials in the Courts of Session was higher (65 days) than in 1886 (38·9).

Appeals

32 The number of criminal appeals disposed of by Deputy Commissioners was 300 against 302 in 1886, and by the Judicial Commissioner 196 against 155.

The annexed statement shows the number of appeals decided by the Deputy Commissioners and the Judicial Commissioner and the manner in which they were disposed of:—

| | Appeals rejected. | Sentences confirmed | Sentences reduced. | Sentences reversed. | Proceedings quashed. | Total. |
|---|---|---|---|---|---|---|
| By Deputy Commissioners ... | 128 | 61 | 41 | 69 | 1 | 300 |
| By Judicial Commissioner ... | 138 | 13 | 8 | 37 | ... | 196 |

The average duration of appeals in the Deputy Commissioners' and Judicial Commissioner's Courts was 16·9 and 24·4 days respectively, as compared with 11·1 and 18·9 days in the preceding year.

There were 34 criminal appeals presented to the Resident, which with 2 pending from 1886 made a total file of 36. Of these, 24 appeals were summarily rejected, in 3 the sentence was reduced, and in 8 the decision of the lower court was confirmed, leaving 1 case pending at the close of the year.

The number of cases which came before the Resident as a Court of Revision was 51, and 5 were pending from the previous year. The total file was 56, of which 48 were disposed of, leaving 8 pending at the end of the year. In 23 interference was declined, in 4 the decision of the lower court was confirmed, and in 3 reversed. The sentence was enhanced in 2 and reduced in 5 cases. In 11 cases the proceedings were quashed and new trial ordered.

## SECTION IV.

### Prisons.

Jail population.

33. The total jail population at the opening of the year was 1,144 as compared with 1,118 in 1886. The total number of prisoners admitted was 2,873 against 3,015 in 1886, while the direct admissions amounted to 1,690 as compared with 1,751 in the previous year. A decrease to the extent of 13·9 per cent. in the daily average strength of all prisoners took place. This marked variation was due to the release of a large number of prisoners on the occasion of Her Majesty's Jubilee and to the fact that on the whole the sentences of imprisonment inflicted were of less than average duration. The decreased number of admissions already noticed further contributed to this result.

No. of convicts and their disposal.

34. The same causes contributed to the reduction of the daily average strength of the convict population, which fell from 1047·9 to 890·7. Omitting under-

trial and civil prisoners, the following figures show the number of convicts in the jails and the manner in which they were disposed during the year:—

| | |
|---|---|
| Remaining at the end of 1886 ... ... | 1,098 |
| Received from other jails .. ... ... | 180 |
| Imprisoned during the year... ... ... | 1,690 |
| Total ... | 2,968 |

| Do. by order of Government ... ... | 418 |
| Escaped ... ... ... ... | 1 |
| Executed ... ... ... ... | 7 |
| Died ... ... ... ... | 23 |
| Remaining at the end of the year ... ... | 993 |
| Total ... | 2,968 |

Classification of convicts.

35. Of the 1,690 convicts admitted into jail, 1,563 were males and 127 females. They included 2 Christians (Native), 266 Muhammadans, 1,420 Hindus and Sikhs, and 2 Buddhists and Jains. There were 28 convicts under 16 years of age, 1,472 between the ages of 16 and 40, 180 between the ages of 40 and 60, and 10 above the age of 60. Of the females, 97 were married, 5 unmarried, 23 were widows, and 2 prostitutes.

Previous occupation of convicts.

36. The figures relating to the occupation followed by the convicts before their admission are as follows:—

| | 1886 | 1887. |
|---|---|---|
| Persons employed under Government or Municipal or other local authorities ... ... ... | 68 ... | 63 |
| Professional persons ... ... ... | 20 ... | 24 |
| Persons in service or performing personal offices ... | 78 ... | 58 |
| Persons engaged in agriculture, &c. ... ... | 342 ... | 277 |
| Persons engaged in commerce and trade ... | 71 ... | 59 |
| Persons employed in mechanical arts, manufactures and engineering operations, &c. ... ... | 11 ... | 13 |
| Miscellaneous persons not classed otherwise ... | 1,037 ... | 1,069 |

The number of "professional persons" and those engaged in engineering operations as well as those indicated as "miscellaneous persons not classed otherwise" slightly exceeded the corresponding figures for the previous year, but there was a decrease under all other heads.

Nature and length of sentence.

37. The statistics relating to the sentences awarded to the convicts show that 129 underwent simple imprisonment, 1,338 were sentenced to rigorous imprisonment, 162 to rigorous imprisonment with solitary confinement, and 61 to rigorous imprisonment with whipping. The terms of imprisonment to which the convicts were sentenced in the year under report are exhibited in the table below, together with similar figures for the year preceding:—

| | 1886. | 1887. |
|---|---|---|
| Not exceeding one year ... ... | 1,515 ... | 1,506 |
| Above 1 year and not exceeding 5 years ... | 210 ... | 146 |
| Above 5 years and not exceeding 10 years ... | 12 ... | 25 |
| Exceeding 10 years ... ... ... | 1 ... | ... |
| Sentenced to transportation ... ... | 9 ... | 9 |
| Do. to death ... ... ... | 4 ... | 4 |
| Total ... | 1,751 ... | 1,690 |

Previous convictions.

38. The number of convicts admitted into jail who had been previously convicted fell from 290 in 1886 to 283; of these, 176 had been once previously in jail, 53 twice, and 54 more than twice. Of 28 prisoners under 16 years of age admitted in the year, 4 had been previously convicted.

Escapes and recaptures

39. One prisoner who eluded his watchers while working outside the jail precincts was recaptured by the police on the same night on which he escaped.

Offences and punishments.

40. Offences against jail discipline rose from 438 to 567, but more than half of the punishments noted were merely cautions. Of the jail offences, 3 were dealt with by the Magistracy against 5 in 1886. Corporal punishments fell from 21 to 20.

Jail schools

41. A regular system of education exists in the two central jails at Akola and Amraoti, by means of which instruction is imparted to convicts who are sentenced to terms of imprisonment exceeding two years. Of this class, 120 prisoners who had been under instruction in the jail were released in the course of the year. On release 46 could read and write well, 48 a little, while 26 had not profited by the instruction received. On admission 101 had been unable to read and write at all, 16 could read and write a little, and 3 well.

Convict officers

42. Of the 126 prisoners employed as convict officers, 120 were males and 6 females, against 94 and 4 respectively in 1886. Of the male officers, 21 were reduced or otherwised punished.

Releases and remissions on account of Her Majesty's Jubilee.

43. The total number of remissions and releases granted on the occasion of Her Majesty's Jubilee was as follows :—

| | |
|---|---|
| Convicts released .. ... ... ... | 260 |
| Convicts credited with partial remissions ... | 557 |
| Civil debtors .. ... ... ... | 1 |

These figures, which have been revised, differ slightly from those shown in last year's report.

Mark system

44. The mark system continued to work well. No convict eligible under the system failed to profit by its provisions.

Occupation of convicts

45. The average number of convicts kept to labour on working days and details as to their employment, &c., are shown in the table below :—

| | 1886. | 1887. |
|---|---|---|
| Average number under sentence of labour on working days . . ... ... ... | 893·88 | 765·59 |
| On unremunerative labour ... ... ... | 3·80 | 2·03 |
| „ prison duties . ... ... ... | 405·64 | 328·24 |
| „ jail buildings ... ... ... ... | 54·14 | 37·98 |
| „ manufactures ... ... ... ... | 397·23 | 367·97 |
| „ public works ... ... ... ... | 0·63 | ... |
| Hired out to municipalities ... ... ... | 0·26 | .. |
| Sick ... . ... ... ... | 12·13 | 13·35 |
| Convalescent and infirm ... ... ... | 19·95 | 15·52 |

Manufactures.

46. The net cash income derived from the employment of prisoners on manufactures was Rs. 12,340 as compared with Rs. 11,395 in 1886. This result was obtained by a convict population 15 per cent. less than that in the previous year. The average earnings per head of all convicts sentenced to labour rose from Rs. 11-1-0 to Rs. 14-2-0, and the earnings of each convict actually employed on manufactures from Rs. 28-11-0 to Rs. 33-8-0. The best results were obtained in the Yeotmal and Buldana jails, in which the earnings per head were nearly Rs. 63. There was a rise in the earnings in the Amraoti jail, but the averages in the Akola and Basim jails fell off.

Health.

47. Temporary overcrowding in the district jails was met by transfers to the central jails. The year was unusually unhealthy. Cholera of a virulent type broke out in the Amraoti jail, causing 8 deaths. The total number of deaths that occurred in the year was 25 against 12 in 1886.

The following is an abstract of the health figures for the past three years:—

| | 1885. | 1886. | 1887. |
|---|---|---|---|
| Ratio per mille of average strength of admissions into hospital .. | 551·9 | 494·1 | 719·9 |
| Ratio per mille of daily average number sick ... ... | 14·0 | 11·1 | 15·1 |
| Rate per mille of deaths in and out of hospital ... ... | 19·1 | 11·0 | 26·7 |

Of the total number of 1,963 prisoners discharged in the course of the year, 278 quitted prison in the same physical condition in which they entered it, 1,351 gained, while 331 had lost weight.

Expenditure.

48. The gross cost of maintaining and guarding prisoners was Rs. 84,505 as compared with Rs. 65,143 in 1886. The gross average cost per head was Rs. 68-14-2 as against Rs. 59-15-1. The increase was caused by dearness of provisions and failure of the vegetable supply in the Akola jail gardens. The comparatively small number of the convict population further affected adversely the average incidence per head of the expenditure on fixed charges.

## SECTION V.

### Civil Justice.

Tribunals.

49. The total number of civil courts open at the close of the year was 35, or 3 less than the number shown last year. The following table shows the difference:—

| | 1887. | 1886. |
|---|---|---|
| The High Court of the Resident ... ... ... | 1 | 1 |
| The Court of the Judicial Commissioner ... ... | 1 | 1 |

| Total ... | 35 | 38 |

No of suits instituted

50. The number of suits instituted in 1887 was 24,491, against 25,970 in 1886. The following statement shows the number of suits instituted in the various grades of courts during the last two years:—

| | 1887. | 1886. |

| Small Cause Courts ... ... | 6,906 | 8,531 |
| Total ... | 24,491 | 25,970 |

There was thus a falling off in the number of institutions of 1,479 over the figures of 1886, or of 6 per cent.

Classification of suits

51. The following table exhibits the nature of the suits instituted during the past two years:—

| | 1887. | 1886. |

| Other suits ... ... .. | 927 | 880 |
| Total ... | 24,491 | 25,970 |

Of the total institutions 20,933 cases, or 85·4 per cent., were for money due as compared with 86·2 per cent. in the previous year. Of these, 13,917 were suits on written obligations, or 832 below the number in 1886.

Value and cost of suits.

52. The following statement shows the suits decided by civil courts classified according to value:—

| | | | | No. |

The aggregate value of suits capable of money valuation amounted to Rs. 30,05,346-14-10, giving an average of Rs. 118 for each suit as compared with Rs. 108 in 1886.

Disposal of suits.

53. The total number of cases for disposal in 1887 amounted to 30,627, of which 2,834 were cases pending from the previous year. Of these, 26,018, or 84·9 per cent., were disposed of during the year, and 1,919 were pending at the close of the year. The general results of their trial were as follows:—

| | No. of suits. | Proportion per cent. | Corresponding proportion in 1886. |

The above results, when compared with those of the preceding year, show an increase in the proportion of cases disposed of without trial The proportion of contested cases also increased, while that of uncontested cases decreased. Decrees *ex parte* increased from 17·1 in 1886 to 19·2 in 1887.

54. The annexed table shows the manner in which the original civil suits decided were distributed between the various grades of civil courts, excluding suits disposed of by the Small Cause Courts and cases transferred :— Work done by each class of court.

The result on the whole was satisfactory, as Tahsildars were relieved of civil judicial work to a greater extent than in the previous year. Extra Assistant Commissioners disposed of 70·1 per cent., or more than two-thirds of the whole litigation in the province.

55. The average duration of uncontested cases remained much the same, being 36·5 days in the year under report, against 36·7 in the previous year; that of contested cases fell from 78·2 days in 1886 to 74·6 in 1887. Average duration.

56. The number of witnesses who attended the courts was 44,371, or 1,178 in excess of that in the previous year, of whom 40,720 were detained for one day, 2,622 for two days, and 1,029 for three days and upwards. The number of witnesses examined was 21,289. Witnesses.

57. The total number of applications for execution of decrees was 29,436 in 1887 and 27,702 in 1886. The number of cases disposed of was 24,166, or 82 per cent. of the whole number for disposal, as compared with 21,929 or 79·1 per cent. in 1886; and the pending file rose from 5,270 to 5,773 The proportions of the various methods of disposal for the last two years are as follows :— Execution of decrees.

| | 1887. | 1886. |
|---|---|---|
| Completely executed ... ... | 17·9 | ... 20·1 |
| Partially do ... ... | 16·2 | ... 17·9 |

| Transferred ... ... ... | 3·4 | ... 4·9 |

The total realizations amounted to Rs. 2,36,979-12-7, against Rs. 2,57,058-6-1 in the previous year. Of this Rs. 13,179-7-11 were paid voluntarily, and Rs. 2,23,800-4-8 after issue of process. Immoveable property was sold in 1,078 cases, and temporary alienations were effected under Section 326 of the Civil Procedure Code in 161 cases.

58. There were 217 civil debtors in prison during the year, including 16 remaining from last year. Of these, 192 were released during the year, and 25 were remaining at its close. Civil debtors

59. There were during the year 52 applications to be declared insolvent, against 47 in 1886. Of these, 14 applications were granted as against 8 in the previous year. The number of estates in the hands of receivers during the year Insolvency applications

was 12, and claims to the value of Rs. 19,542 were admitted, and Rs. 212 were paid away in satisfaction of claims.

Processes

60. There were 216,769 processes issued during the year, against 220,232 in 1886, and the total income decreased from Rs. 84,561-13-0 to Rs. 77,700-8-0. The expenditure increased from Rs 57,922-14-7 to Rs. 58,576-8-11. Altogether the net profit from the service of processes was in the year under report Rs. 19,123-15-1 as compared with Rs 27,354-14-11 in 1886.

Appellate business

61. Including those pending at the close of 1886, there were 578 regular appeals for disposal by Deputy Commissioners as compared with 433 in the previous year The number disposed of was 469 as against 398 in 1886. They were disposed of as follows :—

| | |
|---|---|
| Rejected under Section 551, C. P. C. ... | 169 |
| Dismissed for default ... ... ... | 23 |

In addition to these there were 51 miscellaneous applications for disposal before the courts, of which 41, or 80 per cent., were disposed of.

The average duration of appeals in the Deputy Commissioners' courts was exactly the same as in the previous year, namely, 55·5 days.

Appeals to the Judicial Commissioner

62. In the Judicial Commissioner's court there were 393 appeals for disposal including those pending from the last year, 315 of which were appeals from original decrees and 78 from orders passed in appeal by Deputy Commissioners. Of the whole number for disposal 163, or 41·4 per cent., were decided, and 230 were left pending at the close of the year.

The manner of disposal was as follows :—

| | |

The average duration in this court was 199·6 days as against 76·8 in 1886.

Appeals to the Resident.

63. In the Resident's court 16 second appeals against the decision of the Judicial Commissioner were preferred during the year, and 17 appeals were pending from the preceding year, making in all 33 second appeals for disposal during the year. Of these, 1 was rejected summarily, and in 13 the decision of the lower court was confirmed, in 3 modified and in 4 reversed ; 3 appeals were remanded to the lower court, and 1 was dismissed for default.

Including one pending from 1886 there were 9 applications under Section 622 of the Code of Civil Procedure. Of this number 4 were rejected summarily, the decision was confirmed in one and one, was remanded under Section 562.

## SECTION VI.

### Registration.

No of offices.

64. With the exception of the appointment of a salaried Sub-Registrar in place of one paid by commission, no change occurred in the number and class of offices opened for registration business, which remained at 62 including the offices

of the Inspector-General and Inspector. The proportion of the registration offices to the area and population of the province was the same as in the preceding year, *viz.*, one Sub-Registrar's office to every 295 square miles, and to every 11,545 of the population.

Registration work.

65. The falling off in the number of registrations which was remarked in the preceding year was not continued, and the ground lost was partially recovered. The following table shows the registrations effected in the year under report and in the two preceding years:—

| Year. | Compulsory. | Optional. | | Wills, &c. | Total. |
|---|---|---|---|---|---|
| | | Immoveable. | Moveable. | | |
| 1885-86 ... | ... 17,717 | 6,698 | 2,156 | 61 | 26,632 |
| 1886-87 ... | ... 17,017 | 6,008 | 1,995 | 68 | 25,088 |
| 1887-88 ... | ... 18,089 | 6,152 | 1,962 | 87 | 26,290 |

The number of compulsory registrations was the highest hitherto recorded, and the increase was in all kinds of documents coming under the compulsory category, *viz.*, instruments of gift, of sale, and of mortgage. Optional registrations, though showing a slight recovery from the previous year, did not reach the figure of 1885-86.

The aggregate value of property thus transferred under registered documents rose from Rs. 57,59,199 to Rs. 62,74,587. In this connection the general results for the year under report and the previous year were as follows:—

| | 1886-87 | | 1887-88. | |
|---|---|---|---|---|
| | No. | Value. Rs. | No. | Value Rs. |
| Documents affecting immoveable property .. | 23,025 | 54,58,239 | 24,241 | 58,19,369 |
| Documents affecting moveable property . | 1,995 | 3,00,960 | 1,962 | 4,55,218 |
| Total .. | 25,020 | 57,59,199 | 26,203 | 62,74,587 |

Refusals to register rose from Rs. 211 to 238.

Financial results.

66. The total income of the year rose from Rs. 55,952-7-0 to Rs. 59,184-9-0, and the expenditure from Rs. 36,318-8-7 to Rs 37,222-1-5, resulting in a net surplus of Rs. 21,962-7-7 as compared with Rs. 19,633-14-5 in the previous year. The total accumulated surplus at the close of the year was Rs. 2,25,502.

## SECTION VII.

### Municipalities.

Number and constitution.

67. The number of municipalities remained unchanged, nor was there any alteration in the constitution of the committees, which were as before composed of *ex-officio*, nominated, and elected members. Pending the preparation of subsidiary rules, the Berar Municipal Law of 1886 was not brought into operation, and the municipalities continued to be worked under Act IV of 1873. The total number of members in the seven committees was 103, of whom 24 were *ex-officio*, 71 nominated, and 8 elected members. They included 40 official and 63 non-official members, while 31 were Europeans and 72 Natives of India. Khamgaon was the only municipality which had any elected members serving on its committee.

Income and expenditure.

68. No fresh taxation was imposed during the year. The gross income from all sources, exclusive of previous balances, was Rs. 1,54,925 as compared with Rs. 1,48,128 in 1886-87, and the total expenditure Rs. 1,42,266 as against

Rs. 1,36,609. The following statement shows the income, expenditure, and balances of the different municipalities in the year:—

The total expenditure on measures affecting the public health differed little in the year under report from that in the previous year. Expenditure in connection with establishments, the public safety and convenience, and public instruction increased. The balance in hand at the close of the year was larger by Rs. 12,688 than that in hand at the corresponding period in 1886-87. Several useful works were carried out, particularly at Akola, Amraoti, and Khamgaon.

## SECTION VIII.

### Military.

69. The strength of the military force, furnished by the Hyderabad Contingent, stationed in the province was 129 Artillery, 76 Cavalry, and 952 Infantry, and it was distributed as follows:—

# CHAPTER IV.

## PRODUCTION AND DISTRIBUTION.

### SECTION I.

#### Agriculture.

**Area of the province.**

70. In consequence of the rectification of certain inaccuracies which were discovered in the papers of some of the villages in the Wun and Basim Districts, there was an addition of 179 acres to the area of the province, which now stands at 10,281,339 acres and includes 6,677 villages. Figures showing the distribution of this area for the past two years are compared below :—

| | | | | |
|---|---|---|---|---|
| 1. | Area not included in any survey numbers, such as village sites, tanks, rivers, &c. ... | 200,589 | 200,876 | + 287 |
| 2. | Area demarcated as State forests ... | 279,513 | 279,519 | + 6 |

| 5. | Do. other district reserved forests ... ... | 194,421 | 193,858 | — 563 |
| 6. | Fields assigned for free grazing ... ... | 717,549 | 715,980 | — 1,569 |
| 7. | Do. for village purposes ... | 59,029 | 59,289 | + 260 |
| 8. | Unculturable lands not included in any of the foregoing ... ... ... | 819,702 | 800,278 | — 19,424 |
| 9. | Balance assessed and available for occupation | 7,957,535 | 7,979,507 | + 21,972 |
| 10. | Occupied ... ... ... | 7,542,803 | 7,594,572 | + 51,769 |
| 11. | Not occupied ... ... ... | 414,732 | 384,935 | — 29,797 |

There were no territorial changes during the year. The number of villages remained the same, and the figures of classification differed but slightly from those of the previous year.

**Cultivated area.**

71. The total area assessed and available for occupation was 79,79,507 acres as compared with 79,57,535 in the previous year, and the total area actually occupied was 7,594,572 as against 7,542,803 in 1886-87. The area under crops was 6,436,628 acres, showing a decrease of 18,651 acres. This falling-off is attributed partly to the unseasonable and excessive rain, which allowed no time or opportunity for sowing in all the land prepared for cultivation, and partly to the insufficiency of grazing land in consequence of which cultivators allowed parts of their fields to remain waste to admit of a supply of grass for their cattle. The area under *kharif* crops fell from 4,668,407 to 4,574,317, or by 94,090 acres, but this decrease was to some extent made up for by an increase of 74,364 acres in the area under *rabi*.

**Crops cultivated.**

72. The following table compares the acreage under each of the principal kinds of crops for the past two years :—

| | 1886-87. | | 1887-88. | |
|---|---|---|---|---|
| | Acres. | Proportion. | Acres. | Proportion. |

| Cotton ... ... ... | 2,068,045 | 32·0 | 1,919,894 | 29·8 |
| Total ... | 6,103,383 | ... | 6,068,428 | ... |

The largest decrease was in the area under cotton, which fell off by 148,151 acres. The decrease was due partly to the excessive rain-fall and partly to the rotation of crops. The area under jowari, wheat, and gram, the principal food grains of the province, however increased. The increase under wheat is ascribed to export trade and, in some measure, to the fact that a great portion of the area under cotton, which was destroyed by the heavy rain-fall, was resown with wheat.

Irrigated area.

73. The area under irrigation rose from 67,115 to 67,166 in the year under report. The area under rice fell from 24,676 to 22,434, or by 2,242 acres, but this decrease was made good by an increase of 2,293 acres in the area under other irrigated crops.

## SECTION II.

### Weather and Crops.

Rain fall.

74. The principal characteristics of the rain-fall during the year were an exceptionally heavy fall in the month of July, which did considerable injury to the *kharif* crops, and a somewhat unusual fall in some districts in the month of October followed by a steady fall in the subsequent months, which, while it was unfavourable to *kharif* cultivation, proved very beneficial to the *rabi* crop. The general average for the province amounted to 52 inches, and was 11 and 16 inches in excess of the average of the two previous years. The average for the districts ranged from 44·16 in the Buldana to 68·96 in the Ellichpur District, while the fall in Amraoti, Akola, Basim, and Wun was 52·78, 47·26, 49·04, and 51·07 respectively.

Effect of rain-fall on the crops.

75. The cotton and jowari crops were much injured by the rain-fall in July, and the former was also to some extent damaged by the October fall, which however benefited the wheat crop.

Prices of produce and labour.

76. The unfavourable nature of the *kharif* harvest naturally had its effect on the price of jowari, the staple food of the people, which rose from 31 and 29 seers respectively in 1885-86 and 1886-87 to 20 seers per rupee at the close of the year under report. The difference in the rates of wheat, gram, and rice, the other food-grains, was small and calls for no remark. Except in one district, the prices of labour were much the same as in the previous year.

Experimental farms.

77. The experimental farm at Akola was discontinued, but that at Amraoti was worked throughout the year. Successful experiments were made in the cultivation of oats, wheat, and "bunee," or the long-stapled cotton. The last mentioned produced a good crop as regards quality, but the quantity was much below the average.

Agricultural stock.

78. The following statistics show the agricultural stock of the province for the past two years:—

| | 1886-87. | 1887-88. |
|---|---|---|
| Cows and bullocks ... ... | 1,667,730 | 1,610,224 |
| Buffaloes ... ... ... | 298,694 | 314,903 |
| Sheep and goats ... ... | 443,092 | 481,267 |
| Carts ... ... ... | 113,133 | 136,030 |
| Ploughs ... ... ... | 122,405 | 128,886 |

The decrease under cows and bullocks is ascribed to the prevalence of foot-and-mouth disease, and in some measure to false registration in order to evade payment of the grazing fees. The increase under the other kinds of cattle is believed to be the result of natural reproduction coupled with the absence of disease. The increase under carts was caused by the increase of building operations and improvement of road communications in the Wun District.

Veterinary.

79. Of the six Berar students studying at the Bombay Veterinary College, one was expelled on account of misconduct and two absconded. Their places were

filled by three other youths from Berar. All six were reported doing well at the close of the year. The year is remarkable for the comparative immunity from contagious disease enjoyed by the cattle since the rainy season of 1887 in striking contrast to their condition during the previous year, when rinderpest committed havoc among the village herds. The total number of deaths ascertained from this cause during the year under report was 1,016. Epizootic aphtha (foot-and-mouth disease), although rarely absent, was much less common than in the preceding year. "Surra" or relapsing fever prevailed among the ponies belonging to the postal dâk contractor and caused a large number of deaths. The disease, however, did not spread farther.

80. Horse-breeding operations made steady progress during the year. One hundred and twenty-seven mares were served by the eleven Government stallions maintained in the province. Mule-breeding proved unsuccessful on account of the caste prejudices of the people, only five mares having been served by the two donkey stallions lent by the department of horse-breeding operations. Horse breeding.

81. An attempt was made to establish a horse and cattle show for the province, and a meeting was held at Akola at the end of October. Owing probably to the unsuitableness of the month, the attempt met with but partial success. Horse and cattle show

The continued decrease in the applications for loans is believed to be due to the existing indebtedness of the cultivating class to money-lendrs: the delay which the system entails in granting the advance, and ignorance regarding the provisions of the Act.

## SECTION III.

### Horticulture.

83. The public gardens at the head-quarters of districts and tahsil stations continued to be maintained from the local funds and to be supervised by the Deputy Commissioners.

## SECTION IV.

### Forests.

84. The sanctioned strength of the superior staff during the year was— Staff.

1 Conservator.
3 Deputy or Assistant Conservators.
4 Sub-Assistant Conservators including one employed as a Tahsildar in the Melghat in addition to his Forest duties.

Owing to the transfer of an Assistant Conservator to His Highness the Nizam's service and of a Deputy Conservator to the Burmah Circle, and to the appointment of a fourth Sub-Assistant Conservator sanctioned during the year

not having been filled up till after the year had closed, the actual strength at the end of the year was—

1 Conservator.
2 Deputy and Assistant Conservators including an officer lent temporarily by the Central Provinces Administration and whose services were retained.
3 Sub-Assistant Conservators.

A ranger had temporaily to be appointed to the charge of a division to supply a vacancy.

Forest area.

85. With the exception of a trifling decrease of 25 square miles in district unreserved forest, the area of forest lands in Berar remained the same as in the previous year. This area was distributed as follows:—

| | Square miles. |
|---|---|
| Demarcated State forests ... ... .. ... | 1,107 |
| District reserved do. ... ... ... ... | 435 |
| District unreserved do. ... ... ... ... | 2,574 |
| Total ... | 4,116 |

Boundaries

86. Due attention was paid to the maintenance of existing boundaries in all districts. The defects noticed in 1886-87 in the Amraoti District were rectified at a cost of Rs. 1,873. This was the largest item in the demarcation work. A question regarding the boundary line between the Melghat and the Nimar District of the Central Provinces is under consideration.

Prosecutions

87. Prosecutions for breaches of forest rules continued to decrease; the number fell from 406 in 1886-87 to 387 in the year under report. Including 5 cases which remained over from the previous year, the total number of cases tried was 392, of which 318 resulted in convictions, leaving 5 cases pending at the close of the year The percentage of convictions to prosecutions was 82·17. As usual a large number of the prosecutions were for unauthorized felling or appropriation of wood and minor produce.

Fire conservancy.

88. Fire protection was not so successful as in the previous year. While the total area over which protection was attempted remained the same, the area successfully protected fell from 653,602 to 639,453 acres, and the area over which protection failed rose from 14,769 to 28,918 acres. The average expenditure for the year on account of the successfully protected area decreased. from Rs. 5-11-5 in 1886-87 to Rs. 5-9-3 per square mile in the year under report.

Forest Law

89. The draft rules under the Berar Forest Law, 1886, were sanctioned during the year, but were not brought into force pending a reference to the Government of India in connection with certain further modifications suggested by the local officers.

Working plans.

90. The Raipur-Makla working plan, which was completed in 1886-87, was put into operation in the year under report. The area selected was 3½ square miles. The working plan prescribed the annual felling of 1,000 first-class teak trees, but only 580 trees of this class were found on the area in question. The Conservator considers it too early to say whether the estimate of 1,000 trees per 3½ square miles is too high or not. Most of the trees felled were below the average height of 56′ 2″ fixed by the plan and as a rule possessed no real timber and were hardly worth felling.

Grazing

91. The system of farming grazing lands was discontinued throughout the province, grazing with passes being introduced instead. The measure was acceptable to the people and proved a financial success. Light grazing was, as in the previous year, permitted under certain conditions in the demarcated State reserves of South Berar.

Natural reproduction.

92. The account given of natural reproduction is disappointing, and the Conservator surmises that what used to be reported as plentiful natural reproduction was only the growth of seedlings and coppice shoots, which always appears in the

rainy season, but which invariably dies down in the hot weather unless certain conditions of protection and moisture be present.

Artificial reproduction.

93. Artificial reproduction was confined to operations commenced in 1886-87 on 50 acres in the Pathrot reserve. No fresh area was taken up. The total cost of the operations was Rs. 1,277-13-10, against Rs. 883-5-0 in the previous year.

Cultural operations.

94. During the year 2,383 areas were added to the area under cultural operations and acres 244 excluded. The total area was 10,632 acres, against 8,493 acres in the previous year. Broadcast sowing was continued in all the districts, but with indifferent success. Very little of the seed which germinated during the rains survived the hot weather.

Communications.

95. The expenditure of the year, Rs. 19,184, was the highest on record. Of this sum, Rs. 18,817 was spent in the Melghat, where 23 miles of road were added. The total mileage of forest roads in the province at the close of the year was 132.

Yield and working.

96. Departmental operations were undertaken in the Bairagarh reserve only. The number of trees felled or girdled by Government agency during the year was 4,065 as compared with 3,472 in the previous year. The larger number was due to increased demand.

The following figures compare the revenue realized under each class of forest produce for the past two years:—

| | 1886-87. Rs. | 1887-88. Rs. |
|---|---|---|
| Timber ... ... ... | 76,897 ... | 1,00,070 |
| Firewood and charcoal ... ... | 23,738 ... | 43,591 |
| Bamboos .. ... ... | 31,359 ... | 34,589 |
| Grazing and fodder grass ... ... | 1,72,249 ... | 2,08,667 |
| Other minor produce ... ... | 18,785 ... | 15,582 |
| Confiscated produce and waif wood . | 2,134 .. | 2,474 |
| All other sources . ... | 1,285 ... | 1,274 |
| Total ... | 3,26,447 ... | 4,06,247 |

Financial results.

97. The financial results of the year were on the whole more satisfactory than in the previous year. The figures for the two years are compared below:—

| Class of Forest. | Revenue | | Expenditure | | Surplus | | Deficit. | |
|---|---|---|---|---|---|---|---|---|
| | 1886-87. | 1887-88. | 1886-87. | 1887-88 | 1886-87. | 1887-88. | 1886-87. | 1887-88. |
| | Rs | Rs | Rs | Rs. | Rs. | Rs. | Rs. | Rs. |
| Demarcated State Forests ... | 57,223 | 66,140 | 64,694 | 76,320 | ... | ... | 7,471 | 10,180 |
| District Reserved Forests ... | 1,68,962 | 2,27,151 | 51,182 | 54,259 | 1,17,780 | 1,72,892 | ... | ... |
| District Unreserved Forests ... | 1,00,262 | 1,12,956 | 55,634 | 52,581 | 44,628 | 60,375 | ... | ... |
| Total | 3,26,447 | 4,06,247 | 1,71,510 | 1,83,160 | 1,62,408 | 2,33,267 | 7,471 | 10,180 |
| | | | Deduct deficit | | 7,471 | 10,180 | | |
| | | | Net surplus .. | | 1,54,937 | 2,23,087 | | |

The increase in expenditure was due chiefly to the payment of arrears to village officers for the collection of forest dues, to increased outlay on roads and buildings, and to the extensive demarcation work executed. The net surplus (Rs. 2,23,087) was the highest on record.

## SECTION V.

### Mines and Quarries.

98. There is nothing to record under this head.

## SECTION VI.

### Manufactures.

99. The most important foreign industries are the steam and cotton presses, of which 26 were at work in the province as compared with 24 in the previous year. The total outturn was 226,498 bales of cotton pressed, against 297,905 in the previous year. The decrease was due chiefly to the partial failure of the cotton crop. The oil press at Amraoti did well during the year, having turned out 300 tons of oil and 658 tons of oil-cake, but owing to the small demand for raw oil in Akola, the outturn of oil by the press at that station was only 45 tons. The wheat flour mill at Amraoti did not work so successfully as in the previous year: the outturn was 183 candies of flour, being only one-fifth of the total of 1886-87. There was a decrease of 2,364 lbs. in the quantity of twist and yarn manufactured by the spinning mill at Badnera. The number of employés in this mill was the same as in the previous year.

## SECTION VII.

### Trade.

Registration.

100. As in the previous year, the statistics of trade refer solely to rail-borne traffic. They are furnished by the Railway Audit Office, Bombay, which is paid a sum of Rs. 720 annually as the cost of registration.

103. The total value of the articles exhibited for sale at the fairs held in the province was estimated at Rs 44,66,316, of which articles worth Rs 21,61,757, or nearly 50 per cent., were sold. As in the previous year, the half-yearly fairs held at Nagardas in the Basim District were the most important, and goods to the value of Rs. 9,00,000 were sold at them. The next in importance was the fair held at Wun; at this fair articles worth Rs. 5,71,343 were exhibited, and articles worth Rs. 1,68,930 were sold. Several fairs of less importance were held at Warud, Deulgaon Raja, Pathur, Sonati, and Bhiltek. The chief commodities disposed of were silk cloth, Bombay and country-made cloth, piece-goods (European), copper and brass utensils, and miscellaneous goods. At the Wun fair Rs. 1,01,188 was realized by the sale of bullocks, as compared with Rs. 1,14,764 in the previous year, and at Warud Rs. 1,50,150, or Rs. 30,000 less than in 1886-87, was realized by the sale of tobacco. Timber to the value of Rs. 25,215 was sold at the Bhiltek fair. Fairs

107. The improvements to flanking defences of the Trimulgherry entrenchment by means of galleries in the escarps were completed and handed over during the year. The total cost of carrying out the work amounted to Rs. 42,178, against an estimate of Rs. 40,889.

The additional buildings required for the increased strength of the British Cavalry regiment at North Trimulgherry were under construction. The saddle and store-rooms and privies for two troops were nearly completed at a cost of Rs. 13,876. The stables for two troops were fast approaching completion; No. 1 or West Block was completed, and the roofing of No. 2 or East Block was in hand; an expenditure of Rs. 22,839 was incurred on an estimate of Rs. 30,156. Quarters for two captains and a range of subalterns' quarters were in progress during the year. Materials to the extent of Rs. 18,523 were collected for the construction of four half-troop barracks, but this project is under revision.

## PROVINCIAL PUBLIC WORKS

### *I.—General.*

110. Circumstances necessitated the reduction of the provincial budget grant from 15 to 12 lakhs of rupees. Budget grants and expenditure.

The final budget grants, compared with the expenditure, are shown below :—

| Heads. | Grant. | | Expenditure. | |
|---|---|---|---|---|
| | Original works. | Repairs. | Original works. | Repairs |

| Grand Total ... | 12,85,000 | | 12,26,950 | |

The grant of Rs. 12,85,000 was made up as follows :—

| | Rs. |
|---|---|
| A.—From provincial revenues ... ... ... | 12,00,000 |
| B.—From the jaglia cess ... ... ... | 85,000 |
| Total ... | 12,85,000 |

The grand total of expenditure was Rs. 12,26,950, being Rs. 58,050 short of the grant including the unexpended portion of the funds provided from the accumulated balance of the jaglia cess; but excluding it there was a slight *excess* over the grant for provincial works to the extent of Rs. 9,842 or 0·81 per cent. against a *lapse* of 1·54 per cent. in 1886-87. The excess in question is due to charges by the Civil Department comprising English payments and compensation for land which were communicated late in the year.

There was a short expenditure of Rs. 67,892 from the jaglia cess due to the projects for the water-supply of Buldana and Ellichpur not being sanctioned. Funds for these projects have to be provided partly from the above cess and partly from provincial revenues, and the financial arrangements are under consideration.

Excise

132. The revenue under this head brought to account in 1887-88 shows a decrease of Rs. 37,078 as compared with the actuals of 1886-87 and of Rs. 12,686 as compared with the estimate. The actuals of the two years were as follow :—

| | 1886-87. | 1887-88. | Increase. | Decrease. |
|---|---|---|---|---|
| License and distillery fees ... ... | 13,76,582 | 13,39,842 | ... | 36,740 |

| Total ... | 13,77,392 | 13,40,314 | ... | 37,078 |

From the reports of the Deputy Commissioners concerned, received through the Commissioner, Hyderabad Assigned Districts, the falling off appears to be due partly to combination between purchasers owing to the farm having caused a loss to them in 1886-87 and partly to high prices of grain preventing people from indulging in opium and sendi.

Provincial rate.

133. The receipts of 1887-88 were Rs. 5,00,992 and show a decrease of Rs. 10,285 as compared with the actuals of 1886-87 as shown below, and of Rs. 3,008 as compared with the estimate :—

| | 1886-87. | 1887-88. | Increase. | Decrease. |

| Total ... | 5,11,277 | 500,992 | ... | 10,285 |

The excess in 1886-87 is partly due to the realizations of the Akola District in that year having included a large amount of revenue of the previous year, and partly due to the fact that the second instalment of revenue of 1885-86 credited in

Buldana and Wun District accounts for 1886-87 was in excess of that of 1886-87 credited in 1887-88.

134. Shows an improvement of Rs. 80,186 on 1886-87, and is better than estimate by Rs. 68,447. The actuals of the two years were as follows:— Forest revenue.

136. Interest receipts during the year were Rs. 3,886; they fell short by Rs. 8,789 as compared with the actuals of 1886-87 and by Rs. 114 as compared with the estimate. The falling-off is due to the closing of the Resident's interest-bearing account with the Bank of Bombay in December 1886. Interest.

137. The receipts under this head were Rs. 62,383 and are better than actuals of 1886-87 by Rs. 4,540 as compared as follows:— Law and Justice—A. Courts of Law.

In the first list of corrections to the Civil Account Code, Volume II, fourth edition, the head "Jails" was separated from Law and Justice from the year 1887-88; consequently the jail receipts credited under Law and Justice in the account for 1886-87 have been excluded in contrasting as above the actuals of the two years, but are shown distinctly below.

138. The receipts of this head have hitherto been shown under Law and Justice, but from 1887-88 they have been shown separately for the reasons stated above. For the purpose of comparing the actuals of 1887-88 with those of 1886-87 the figures of the latter year were omitted from Law and Justice and were taken to this head. The actuals of the year under review were Rs. 20,853, and fell below the actuals of the previous year by Rs. 7,802, and by Rs. 14,447 as compared with the estimate. The falling-off is nominal, as the jail press receipts are now credited to Stationery and Printing with reference to note 43 on page 635 of the Law and Justice—B. Jails.

Civil Account Code, Volume II; the charges in connection with the lithography being debited to the corresponding charge head instead of to the head Jail, Manufactures under Law and Justice as in former years.

Police.

139. The receipts under this head were Rs 9,468 and show an increase of Rs. 1,852 over the actuals of 1886-87, falling below the estimate by Rs. 9,468; this is due to the non-recovery of contribution from the Great Indian Peninsula Railway Company on account of the cost of Berar Police employed on the Company's line in the Hyderabad Assigned Districts, the subject being under reference.

Education.

140. The receipts under this head were Rs. 38,568 and better than the estimate by Rs. 4,568, and the actuals of 1886-87 by Rs. 1,779.

The following is a comparison of the actuals of 1887-88 with those of 1886-87:—

Stationery and printing.

144. The receipts under this head were Rs. 11,523 and show an increase over the estimate of the year under review, and the actuals of 1886-87 by Rs. 10,523 and Rs. 9,752 respectively, chiefly due to the jail press receipts being now credited to this head instead of to Jails as in former years.

Miscellaneous.

145. The actuals of 1887-88 were Rs. 1,32,514, and those of 1886-87 Rs. 1,28,739; the principal increase is under gain by exchange.

State Railways.

146. The revenue credited in the accounts of 1887-88 was Rs. 1,41,637 against Rs. 1,54,564 credited in 1886-87; the decrease is due to decreased goods traffic during the year under review.

1. *Army and Garrison Staff.*—The increase of Rs. 5,538 under "Army and Garrison Staff" is chiefly due to an officer of higher rank having held the appointment of Assistant Adjutant General, Hyderabad Contingent, during 1887-88.

3. *Regimental Pay and Allowances.*—The increase of Rs. 71,120 under "Regimental pay and allowances" is partly due to the furlough pay of regimental officers having been debited to this head during 1887-88, whereas previously it was debited to miscellaneous, and partly to the reliefs of Infantry regiments during that year.

4. *Commissariat Establishment.*—Increase of Rs. 12,278 under Commissariat Establishment occurs chiefly under compensation for dearness of provisions for natives and for horses and ponies, and is due to the rise in the average prices of provisions.

5. *Stud and Remount Establishment.*—A less number of horses and bullocks having been purchased during the year under review, the expenditure under Stud and Remount Establishment is less by Rs. 11,623.

6. *Clothing Establishment.*—The saving of Rs. 41,015 under Clothing Establishment is due to the cost of clothing supplied to Infantry Regiments, Hyderabad Contingent, during 1887-88 not having been charged in the accounts of that year.

9. *Medical Establishment.*—The decrease of Rs. 3,601 under "Medical Establishment" is due to the extra medical charge allowance having been paid during 1886-87 to Medical Officers for additional charges and to the extra medicines obtained during that year, the result of regiments being on field service in Burma.

10. *Ordnance Establishment.*—The decrease of Rs. 7,819 under Ordnance Establishment chiefly occurs under purchase of camp equipage and line gear, the cost being less during 1887-88 than during 1886-87.

14. *Miscellaneous Services.*—The decrease of Rs. 51,072 under Miscellaneous Services is partly under Travelling allowance to officers and men and partly under Furlough pay of military and medical officers. In regard to the former it is due to second-class fare having been charged on account of men proceeding on furlough instead of third class during 1886-87, and as regards the latter to the furlough pay of military and medical officers having been adjusted under 3, Regimental

Pay and Allowances during 1887-88 under orders of the Comptroller General. The latter charge was adjusted under head Miscellaneous Services during 1886-87.

16, *Reward for Military Services.*—Increase of Rs. 992 under 16, Rewards for Military Services is due to certain men having been admitted to the Order of Merit during 1887-88 for service in Burma.

17, *Retired Officers.*—The increase of Rs. 28,243 under Retired Officers is due to the portion of pension of certain officers retired previous to 1887-88 having been adjusted in arrears in the accounts under review.

# CHAPTER VI.

## VITAL STATISTICS AND MEDICAL RELIEF.

### SECTION I.

### Births and Deaths.

System of registration

156 No change occurred in the system or method of registration. Urban when compared with rural registration was still defective, but some progress was made in the course of the year.

Births

157. The number of births registered in the year was 106,147 as compared with 98,229 in the previous year. The proportion of registered births to population was 40·5 per mille, the rate reached being greater by 3·2 than that of 1886. Of the births registered, 54,711 were males and 51,436 females. In the districts the birth-rate varied from 45·6 per mille in Buldana to 38·4 in Basim and Akola and 34·4 in Wun. In towns the mean birth-rate was 39·2 per mille, against 35·1 in 1886 and 37·4, the average mean of the previous five years. The largest number of births was recorded in the third quarter of the year or monsoon season. The greatest number of registrations was observed in the months of August, September, and October, and the smallest in January and February.

Still-births

158. The number of still-births registered was 4,559 as compared with 4,103 in 1886. Of these, 2,585 were males and 1,974 females. The proportion of still births to total live-births per cent. was as follows:—

| Male | | Female | | Total. |
|---|---|---|---|---|
| 4·7 | ... | 3·8 | ... | 4·2 |

Deaths.

159. The number of recorded deaths from all causes was 118,797, exceeding by 22,251 the number registered in 1886, and by 12,650 the total number of births recorded during the year. The ratio of deaths per thousand of population was 44·5 as compared with 36·7 in the previous year and 35·3, the mean of the previous five years. Calculated, however, on corrected population figures, the death-rate may be taken at 44·5 per thousand. The increase in mortality is ascribed by the Sanitary Commissioner to the outbreak of cholera in an epidemic form and to a rainfall much above the average. Of the total number of deaths recorded, 62,067 occurred amongst males and 56,730 amongst females. The proportion of male deaths per thousand of the male population was 45·8, and the similar proportion of female deaths was 44·8. In the different districts the death-rate ranged from 54·3 in Amraoti to 37·3 in the Basim District, while the rates for Ellichpur, Wun, Akola, and Buldana were 45·4, 39·6, 44·9, and 45·6 respectively. The month of August with an average of 712 deaths per diem, or an annual death-rate of 100·8 per mille, was as usual the most unhealthy month in the year. The fewest deaths occurred in March, May, and June, when the rates were 25·2, 26·4, and 26·4 per mille respectvely. The average number of deaths registered on each day of the year was 325 as compared with 264 in 1886. The number of deaths among infants under one year old was 22,753, or 21 per cent. of the registered number of births. The death-rate at this period of life was 268·9 per mille as compared with 274·5 in 1886 and 278·1 in 1885. The insanitary and epidemic influences of the year would not appear to have affected infants of this age owing perhaps to the sanitary measures which are being slowly introduced into towns and villages. The annual death-rate per 1,000 living at different ages for the year under report and that preceding it is shown in the table below:—

| Ages. | 1887. | | | 1886. | | |
|---|---|---|---|---|---|---|
| | Males. | Females. | Total. | Males. | Females. | Total. |
| All ages ... | 45·0 | 43·9 | 44·5 | 37·3 | 36·1 | 36·7 |

| 60 and upwards ... | 122·9 | 116·5 | 119·7 | 97·1 | 95·8 | 96·4 |

The following figures compare the deaths for the two past years according to classes :—

| | 1886. | 1887. |
|---|---|---|
| Christians ... | 16 | 23 |
| Muhammadans ... | 6,185 | 7,479 |
| Hindus ... | 86,252 | 106,195 |
| Other classes ... | 4,093 | 5,100 |
| Total ... | 96,546 | 118,797 |

The death-rate in towns was 44·4 as compared with 44·7 in rural circles. The rural death-rate was unusually heavy, the villages having suffered comparatively to a greater extent than the towns from the cholera epidemic.

The statement below contrasts the registered causes of deaths during the year with those for 1886 :—

| Causes of death | 1886 | | | |
|---|---|---|---|---|
| | Deaths. | Ratio per 1,000 of population. | Deaths | Ratio per 1,000 of population. |
| Cholera ... | 976 | ·4 | 14,396 | 5·5 |
| Small-pox ... | 116 | ·04 | 311 | ·1 |
| Fevers ... | 45,643 | 17·3 | 48,114 | 18·3 |
| Bowel-complaints ... | 16,791 | 6·4 | 21,530 | 8·2 |
| Injuries ... | 988 | ·4 | 1,029 | ·4 |
| Other causes ... | 32,032 | 12·2 | 33,417 | 12·8 |

Cholera appeared in April and assumed an epidemic form. The disease reached its height in August and did not entirely disappear till December. The Amraoti and Buldana Districts were those most affected. Small-pox was particularly virulent in the town of Khamgaon.

## SECTION II.

### Immigration and Emigration.

160. No remarkable movement of population either from or into the province occurred during the year. The only migrations reported were of 1,678 persons who went to reside in the Wun District and of 997 who left it. A large number

of the immigrants are believed to have been labourers from the Central Provinces, who make their way annually to the Wun District at the beginning of the cold season and leave it at the commencement of the rains.

## SECTION III.

### Medical Relief.

No. of hospitals.

161. The number of dispensaries was increased by 1, making a total of 43 in all. With one exception, all were of the first class.

Medical staff.

162. The medical staff employed during the year was as follows :—

| | | |
|---|---|---|
| Surgeon-Majors ... | | 2 |
| Surgeons ... | | 3 |
| Apothecary class ... | | 2 |
| Hospital Assistants | 1st class ... | 19 |
| | 2nd class ... | 8 |
| | 3rd class ... | 16 |

Five vacancies for hospital assistants were filled by men entertained locally.

Patients treated.

163. The total number of patients treated in the year rose from 234,595 in 1886 to 218,510. The increase was due to the unhealthiness of the year and to the opening of the new dispensary, which in itself had a total attendance of 4,142. The growing popularity of the institutions also contributed to the rise in the number of patients. Of the total number treated, 2,360 were in-door and 216,150 out-door patients. The average daily number of in-door patients under treatment was 75·08, and of out-door patients 1817·07, as compared with 82·40 and 1751·43 respectively in the previous year. Of the out-patients, 196,727 received medical aid in person, and 19,423 through friends who represented them. Of the in-patients, 2,008 were cured, 88 relieved, 42 discharged, and 137 died. The average death-rate among in-door patients was 5·8 per cent. as compared with 3·9 in the preceding year. Of the total number of patients of both classes, 121,733 were men, 39,196 women, and 87,581 children. The average daily attendance of both classes was 958 men, 398 women, and 656 children. Divided according to classes, 896 of the patients were Europeans, 2,037 Eurasians, 152,197 Hindus, and 82,283 Muhammadans.

Diseases treated.

164. As usual fever of a malarious type was the most prevalent disease. Under this heading 37,232 cases occurred, as compared with 49,009 in the previous year, but the falling-off was more nominal than real, being largely due to a revision of the nomenclature under which fevers other than malarial are shown under the head "all other general diseases." The extent to which other special diseases were treated is shown in the following table :

| | |
|---|---|
| Diseases of the skin | 28,334 |
| Do. eye | 23,187 |
| Ulcers | 18,257 |
| Worms | 13,708 |
| Diarrhœa | 10,016 |
| Dyspepsia | 8,225 |
| Diseases of the ear | 6,851 |
| Dysentery | 6,289 |
| Rheumatic affections | 5,201 |
| Diseases of the connective tissue | 5,053 |
| Do. nervous system | 4,646 |

Operations.

165. The number of major operations performed in the year was 325, as compared with 275 in the previous year. Of the number, 275 were successful. The number of these patients relieved was 16, 8 were discharged, and 20 died, while 16 remained under treatment at the close of the year.

Income and expenditure.

166. The cash balance in hand at the opening of the year was Rs. 51,617-3-7 as compared with Rs. 41,077-8-1 at the corresponding period in 1886. The total receipts in the year from all sources amounted to Rs. 1,04,210-6-5 as against Rs. 86,531-8-4 in 1886. The cash balance remaining at the close of the year was Rs. 54,328-9-1 as compared with Rs. 40,192-12-11 remaining at the close of 1886. With a view to rendering the dispensaries more self-supporting, the question of introducing a moderate scale of fees leviable from well-to-do patients was revived at the close of the year.

Inspection.

167. The dispensaries and hospitals received the ordinary share of inspection from the Civil Surgeons of districts. The Inspector-General inspected 6 civil hospitals, 6 jail hospitals, and 22 charitable dispensaries.

## SECTION IV.

### Sanitation.

168. No new sanitary works on a large scale were undertaken in the municipalities during 1887. Out of an estimated income of Rs. 1,78,315, Rs. 84,155, or 47·1 per cent. of total income, were expended in the seven municipalities for sanitary purposes; on conservancy alone 21·1 per cent. of the total income was expended. Proposals were made in the course of the year by the Akola Municipality for carrying out the scheme for supplying the town with water. The drainage of the town of Khamgaon was completed, and that of its suburbs taken in hand. As regards district expenditure, the only work of importance undertaken was a project to supply the civil station of Amraoti with water. The work is estimated to cost Rs. 48,431. The total district (non-municipal) expenditure on works of sanitary improvement was Rs 1,03,390 as compared with Rs. 93,685 in the previous year Of this sum, 29 per cent. was spent on conservancy, 22 per cent. on drainage, 18 per cent. on water-supply, and 30 per cent. on other sanitary works. The sanitary inspection of towns and villages was steadily carried on and detailed reports were submitted as usual by the Sanitary Commissioner. An improvement in the sanitary condition of the towns and villages in the Basim District was specially noticed.

## SECTION V.

### Vaccination.

Strength and conduct of the staff

169. The strength of the establishment was the same as in the previous year. The conduct of the staff, with one exception, was satisfactory.

Work done.

170. The total number of operations performed by all establishments was 97,158 as compared with 95,504 in 1886-87. Of these, 90,311 were performed by the special establishment and 6,847 at dispensaries, as against 88,266 and 7,238 respectively in the previous year. Although the number of operations performed at dispensaries fell off by 391, those performed by the special establishment increased by 2,045. These results would have been still more satisfactory had it not been necessary to employ the majority of the vaccinators on special cholera duty for nearly four months of the year. Of the total number of persons operated upon by the special establishment, 46,075 were males and 44,236 females The average number of persons vaccinated by each vaccinator was 2,150 as compared with 2,070 in the previous year. Out of a total of 93,118 successful primary operations, 86,824 were performed by the special establishment and 6,294 by the establishment at dispensaries, as compared with 83,554 and 6,672 respectively in the previous year. The percentages of successful cases were 96 5 and 93·3

respectively, as against 96·2 and 92·3 in 1886-87. As regards re-vaccination, the figures below show an appreciable increase over the results of the previous year:—

| | | 1886 | 1887. |
|---|---|---|---|
| Total number of operations by all establishments | ... | 48 | 433 |
| Total successful .. .. | ... | 14 | 234 |
| Percentage of success .. ... | ... | 29·1 | 54·0 |

Cost

171. The total expenditure incurred fell from Rs. 17,119-11-4 in 1886-87 to Rs. 16,770-3-2 in the year under report, and the average cost of each successful operation from 3·3 as. to 3·1 as.

# CHAPTER VII.

## INSTRUCTION.

### SECTION I.

### Education.

172. In consequence of the prevalence of cholera, fevers and bowel-complaints, which affected the attendance in schools, the year under report was unfavourable to the progress of education. The enhanced fees which were imposed during the year probably also tended to decrease the attendance. The number of schools and scholars on the 31st of March is given below for the past two years :— No of schools and scholars.

| Description of schools. | | | | No of schools. | | No of scholars. | |
|---|---|---|---|---|---|---|---|

| Training school for masters | | | | 1 | 1 | 96 | *99 |
| | | | Total | 988 | 1,033 | 43,661 | 43,658 |

* This includes 19 pupil-teachers under training for schoolmasterships in the different districts.

While the number of secondary schools was the same as in the previous year, Government primary institutions show an increase of 1 among the boys' schools and 2 among those for girls. There was a decrease of 21 among the unaided primary schools under private management, which was however amply compensated for by an increase of 78 among the aided schools of this class. Among wholly private institutions, the number of advanced (Arabic or Persian and Sanskrit) schools decreased by 3, and elementary by 12. As regards attendance, while the Government, Municipal, and unaided private schools for boys show a falling-off in the number of pupils, Government schools for girls and aided private institutions for boys and girls had a substantial increase to their attendance.

173. With regard to the number of schools and scholars, the relative positions of the districts were the same as in the previous year. Akola was still in the foremost place, while Wun held the last, and Ellichpur, excluding the Melghat, the first as regards the average number of square miles to every school and the percentage of scholars to school-going age. Distribution of schools and scholars according to districts.

University education.

174. The total number of students holding Berar scholarships pursuing their education in the Bombay colleges fell from 7 to 6. Of three students in the Previous examination class, one was prevented by illness from appearing for examination, while of the two that presented themselves, one succeeded in passing the examination. One student who appeared for the first B.A. examination failed to pass owing to his being ill at the time of examination. However, two ex-students of the Berar High Schools passed higher University Examinations during the year—one the second B.A. and the other the M.A. examination.

Matriculation.

175. Gratifying as the results of the Matriculation examination were to Berar during the preceding three years, the success obtained during the year under report was the most satisfactory on record. Out of a total of 27 candidates from the high schools of the province who appeared for the examination, 17 were successful, the percentage of success obtained by Berar being 63 as compared with 27·3 per cent. for the Bombay Presidency and adjoining districts. In addition to this four ex-students of the Berar High Schools were successful at the examination. Of the three Berar scholarships, two were won by students from the Akola High School and one by a student from the Amraoti High School. The "Cama Barristers' Victoria Jubilee Scholarship" and the "Sinclair Prize" were awarded to two students of the latter institution.

* Omitted as the information on this point has not been furnished in the Report of the Director of Public Instruction.

The increased cost of educating each pupil in the middle and high schools was due to enhanced expenditure on those institutions on account of salaries and repairs and to the entertainment of additional masters. In middle schools the decrease in the average cost to provincial revenues was caused by a larger portion of the expenditure being borne by fees than in the previous year.

Primary schools.

177. There was no material change in the number of primary schools for boys under the management of the department and of municipalities, but the total number of scholars fell off by 1,345. The following two tables furnish information regarding the state and cost of education in these schools for the past two years :—

The receipts from fees thus increased by over Rs. 4,000, and the total expenditure by nearly Rs. 2,000, but the average cost of educating each pupil, both as a total cost and the cost to provincial revenues, and the proportion of the total expenditure on Government primary schools chargeable to provincial revenues fell below the figures of the previous year.

178. The number of schools under private management receiving fixed monthly grants from Government was 4, as compared with 3 in the previous year. The increase was caused by the conversion of the Amraoti Mission Female School from a Government institution into a grant-in-aid school. The total number of pupils rose from 195 to 225. The number of pupils who passed in the primary standards was 82. The aggregate monthly allowance granted to these schools was Rs. 92. Aided schools.

179. Good progress was made during the year as regards indigenous schools. The total number of schools rose from 338 to 390, the number inspected from 278 to 360, the number of pupils examined from 3,667 to 4,635, and the number of schools which earned proficiency and capitation grants including prizes from 201 to 267, while the number which earned other grants besides prizes and those which earned prizes only rose from 31 and 34 to 40 and 35 respectively. The total value of the grants rose from Rs. 6,189-1-6 to Rs. 8,179-12-2. Indigenous schools.

Training College

180. The total number of students undergoing training as schoolmasters was 99 as compared with 96 in the previous year. Nineteen of the students were attached to selected schools as pupil-teachers. Of the total number of students, 46 were examined in the first year's course, of whom 29 passed; and 29 in the certificate examination, of whom 16 passed. Twenty-five students obtained employment.

Examination for entrance into the Training College.

181. The number of candidates who appeared at the examination for entrance into the Training College was 116 as compared with 100 in the previous year. Fifty-seven candidates succeeded in passing the examination, of whom 49 joined the college, 39 being on the Marathi and 10 on the Hindustani side.

Drawing.

182. Drawing continued to be taught in the high schools and the training college. The number of students who presented themselves for the First Grade examination held at the Bombay School of Art was somewhat larger than in the previous year, *viz.*, 69, against 54. Thirty-one students obtained certificates, and one was awarded a prize.

Female education primary.

183. Female education advanced, although the rate of progress was slow. The number of Government and municipal schools for females rose from 34 to 36, and the number of scholars from 1,134 to 1,213, while the amount of fees collected also showed an increase, *viz.*, from Rs. 170-14-0 to Rs. 196-2-3. The total expenditure rose from Rs. 6,800-2-6 in 1886-87 to Rs. 8,325-0-10 in the year under report, and the annual cost of educating each pupil from Rs. 6-5-2 to Rs. 7-4-11. In addition to these institutions, there were seven aided private schools for girls with 148 scholars, making a total of 43 female schools in the province with 1,572 scholars, including those girls who attended schools other than those reserved exclusively for females, as compared with 38 and 1,423 respectively in 1886-87. The number of passes in the several standards was 414, including the girls who passed in boys' schools, as against 282 in the preceding year.

Education of Europeans and Eurasians.

184. Two additional schools for European and Eurasian children were opened during the year, making a total of three in all, with a total of 57 pupils. All are reported to have done well.

Muhammadan education.

185. The following statistics of the Hindustani schools under public management for the past two years show an improvement in the education of Muhammadan children:—

| | 1886-87 | 1887-88. |
|---|---|---|
| Number of schools ... | 76 | 78 |
| ,, of scholars on the 31st March ... | 3,977 | 4,015 |
| ,, of pupils examined under the several standards | 1,814 | 1,778 |
| ,, of pupils passed ... | 1,069 | 1,283 |

There was also a slight increase in the number of Muhammadan pupils in schools under private management.

Education of aborigines.

186. The number of pupils who attended the two schools for the children of aborigines rose from 56 to 60, but the number of passes in the first three standards was the same as in the previous year. It was found necessary to close one of these schools as the people do not want or appreciate schools.

Education of low castes.

187. Education among the low castes showed a slight advance over the previous year. The number of pupils was 1,392, as compared with 1,344 in 1886-87. The number of pupils examined rose from 349 to 448, the number passed from 218 to 291, and the percentage of passes from 62·4 to 65·6.

Private schools.

188. The number of private schools at the close of the year was 11 as compared with 26 in the previous year, and the number of pupils 173 as against 340. The reduction was the natural outcome of the additional grant-in-aid rules which were introduced in 1887, by means of which those of the so-called "private schools"

that took advantage of the provisions of the new rules were returned as "public schools under private management."

189. Physical education continued satisfactory in all districts but Buldana. The number of gymnasia rose from 372 to 397. The number visited by the instructor was 381. Physical education

190. The following figures show the pupils according to race or creed during the past two years in the Government and Municipal schools of the province:— Castes of pupils.

| Others | | 20 | ·05 | 20 | ·05 |
| Total | | 36,886 | | 35,600 | |

191. Popular contributions fell from Rs. 7,992-0-6 in 1886-87 to Rs. 5,938-6-8 in the year under report. The decrease is ascribed to the unhealthiness of the year and in some measure to bad harvests. The amount contributed was, however, more than double that received in 1885-86. Popular contributions.

192. In consequence of the introduction from the 1st December 1887 of an enhanced scale of fees, the income from this source was augmented largely. The figures for the past three years are compared below:— Fee receipts.

| | 1885-86. | | | 1886-87. | | | 1887-88. | | |

193. The total expenditure of the year was Rs. 4,24,984 as compared with Rs. 4,02,782 in 1886-87. The increase was due to larger sums having been spent on account of grants-in-aid to private schools and on direction, inspection, high schools, &c. Also to larger disbursements on primary school-houses. Of the total expenditure, Rs. 2,51,139 was met from provincial revenues, Rs. 1,17,021 from the educational cess, Rs. 41,361 from fees, and the balance from local funds and subscriptions. Expenditure.

**Presses.**

197. With the exception of a weekly newspaper (*The Varhad Darpan*) which was started in 1886-87 and printed at the *Gana Sindhu* Press and came to an end in the year under report, there was no change either in the number of presses or in the newspapers and periodicals published in the province.

‡ The average cost of each pupil in Local Fund and Municipal Schools is to be obtained from the figures given in General Table VII.

§ Fractions of a rupee should be omitted, except in the columns showing the average annual cost of educating each pupil.
